STEPHENVILLE, TEXAS

WOLFE NURSERY'S WORLD FAMOUS PAPERSHELL PECANS

THE **GARNER**

A Wolfe Nursery introduction acclaimed outstanding for quality, production, and unexcelled shade.

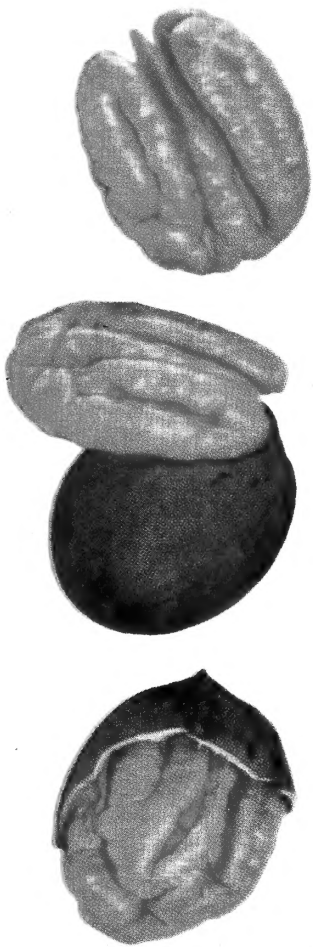

Plant your pennies and watch your dollars grow. Garner starts growing dollars in a hurry. We have fruited this great Pecan alongside of many others during a period of 16 years and it has made more money per tree than any other. We have never been able to supply the demand. Garner will bear at least one-third more per tree than other Pecans and produce nuts the first or second year after you plant them. WHY? Because Garner just naturally bears young. Add this desirable trait to Wolfe's "Machine-dug" root system that reduces "TRANSPLANT SHOCK"—the use of FRUIT BUDS in propagation, and you have the answer to why people prefer Wolfe's Garner Pecan Trees. Garner is FROST-RESISTANT—bears every year and is one of the first to mature in the fall. It is a TRUE paper-shell—so thin it can be cracked with the fingers. The creamy, delicious kernels are extremely rich in oils, proteins, carbohydrates, vitamins, and distinctive flavor. Plant in uplands of sections only at altitudes of 600 feet and UP. Garner is one of the most outstanding Western varieties ever discovered. Should be planted with Mahan for best results. Order your trees early. Get the benefit of early rains. Garner is labelled RED.

PRICES:

2 to 3 ft. Trees — \$2.95

3 to 5 ft. Trees — \$4.75

5 to 7 ft. Trees — \$6.90

**Garner
will outbear all
other Pecans.**

Note this beautiful Pecan; what a thin shell, how perfect the big kernels, and the ideal shape. John Garner is about one-third larger than pictured above. **SOLD ONLY BY WOLFE.**

A PECAN ORCHARD GIVES YOU SECURITY AND PROFIT
LET US HELP YOU PLAN YOUR FUTURE WITH A PECAN ORCHARD

When you plant a Papershell Pecan orchard now, you are planting for income and security in the years that lie ahead—A well cared for pecan orchard will give you huge returns, compared with the investment—See pages 14 and 15 for complete information concerning your commercial Pecan Orchard.

The World's Largest Pecan

Giant

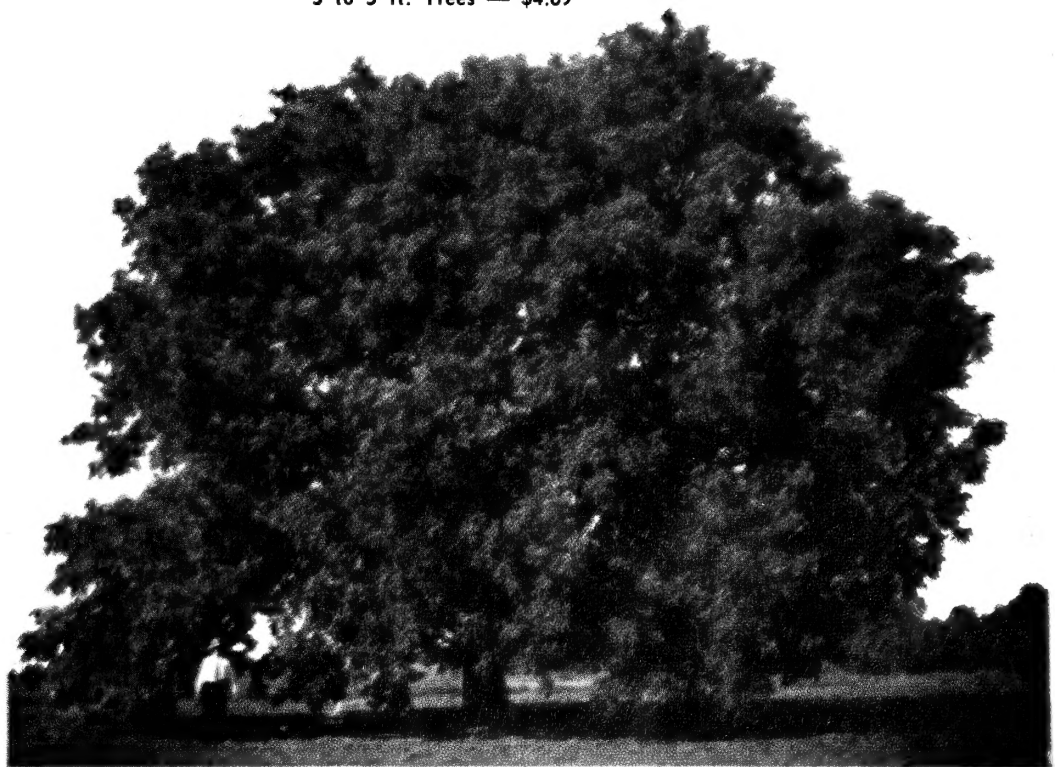

MAHAN

Can you imagine Pecans so large that the clusters of nuts look like bananas on the trees? That's Giant-Mahan — THE WORLD'S LARGEST PECAN. The nuts look somewhat like Schley but they are more than twice as large. Giant-Mahan is also a true brittle paper-shell and brings more money per pound than any other Pecan. This variety has become increasingly popular due to the healthy, vigorous-growing tree which makes a beautiful shade specimen. It grows upright and puts on dense, dark green foliage. The leaves are extremely large. Added to this feature, it is adapted to all sections and is resistant to common diseases. Giant-Mahan is a heavy producer and our Machine-Dug root system enables it to start bearing soon after you plant it. Giant-Mahan and Garner make an ideal pair for home or commercial planting. Mahan is labelled with one WHITE stripe.

PRICES: 2 to 3 ft. Trees — \$2.69
3 to 5 ft. Trees — \$4.69

5 to 7 ft. Trees — \$6.69

There is no tree that adds so much to the value of your land as does a papershell pecan.

BLUE RIBBON PECAN OFFER

PAPER-SHELL PECAN SPECIAL

This is the "perfect" combination of Papershell Pecans. If you look for production of high quality, huge size papershell pecans—if you look for beautiful, valuable, long-lasting shade trees—look no more, for this "perfect" combination gives you the ultimate in production, plus shade that's a joy to enjoy. Our BLUE RIBBON OFFER is made up of 3 selected trees. Two Stuarts and one Giant Mahan. Offered in three different sizes. If you want only the finest—at a saving—order today.

PRICES:

3 Trees 5 to 7 ft. size — \$16.95

3 Trees 3 to 5 ft. size — \$10.95

3 Trees 1 to 3 ft. size — \$5.95

WOLFE'S SELECT PAPER-

WILL PROVE TO YOU THAT —

STUART

A POPULAR VARIETY ADAPTED TO ALL
SECTIONS INCLUDING THE COAST

Stuart comes nearer to being well adapted to all sections of the country and all soils than any other variety. It is an excellent producer and a hardy, fast growing, healthy tree. The meat has a real Pecan flavor and the shell is medium thick—somewhat brittle.

The average Stuart will run 48 to 50 per cent kernel. As you can see by the actual color picture at the left, the Pecan is large and always well-filled. The trees bear regularly and are highly resistant to scab. Stuart is labelled YELLOW.

PRICES:

2 to 3 ft. Trees — \$2.40
3 to 5 ft. Trees — \$3.98

5 to 7 ft. Trees — \$6.40

SUCCESS

This most popular Eastern variety is in demand because of its excellent flavor; large, plump, smooth, creamy kernels that release perfectly from the thin soft shell. Forty of the big nuts usually make a pound and it tests High in meat content. The tree is a beautiful, vigorous grower and highly resistant to scab. It heads low and makes an ideal variety for yard planting. Success ripens a few days later than Stuart. Both are very polliniferous. Wolfe Pecan trees will grow off faster—produce earlier—and make a vigorous shade tree years sooner. Buy Wolfe Nursery selected trees and you buy the finest. Success is labelled with one PINK stripe.

PRICES:

2 to 3 ft. Trees — \$2.40
5 to 7 ft. Trees — \$6.40

3 to 5 ft. Trees — \$3.98

WESTERN SCHLEY

THE PIONEER WESTERN VARIETY

PRODUCING PROFIT EVERY YEAR

One of the most ideal home orchard and commercial varieties. Its size is large and its shell thin. Western Schley never fails to prove that money does grow on trees. The tree is remarkably healthy, a strong grower, early and heavy producer. A genuine Risien Gold Medal Pecan that makes a gorgeous shade specimen in a hurry. Labelled with a GREEN stripe.

PRICES:

2 to 3 ft. Trees — \$2.40
5 to 7 ft. Trees — \$6.40

3 to 5 ft. Trees — \$3.98

Juicy Ripe Figs the First Year

WOLFE'S EVERBEARING FIGS

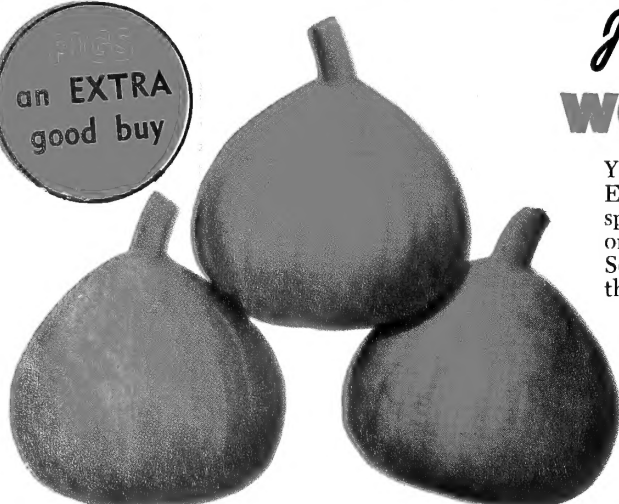

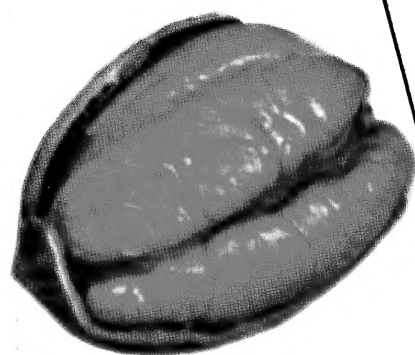

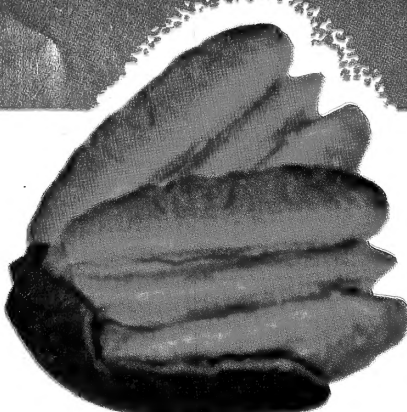

You can have fresh big, soft, sweet Figs the first year from Wolfe Everbearing Figs. Easy to plant and easy to grow. I wish you could spread some of the delicious Fig preserves that Mrs. Wolfe makes, on a hot biscuit, with a little butter and then take a big bite. Good! So good that you'd plant three or four Figs in your back yard. Figs the first year!

Good!! Fresh Figs are Luscious

It bears the first year and ripens big, delicious Figs from July until frost. Bears on new growth. As the actual color picture shows, it is a beautiful Fig and very sweet. \$400.00 an acre was made on this Fig at Dallas, Texas. Labelled PINK over WHITE.

Large Size Trees — \$1.39

Medium Size Trees — \$.89

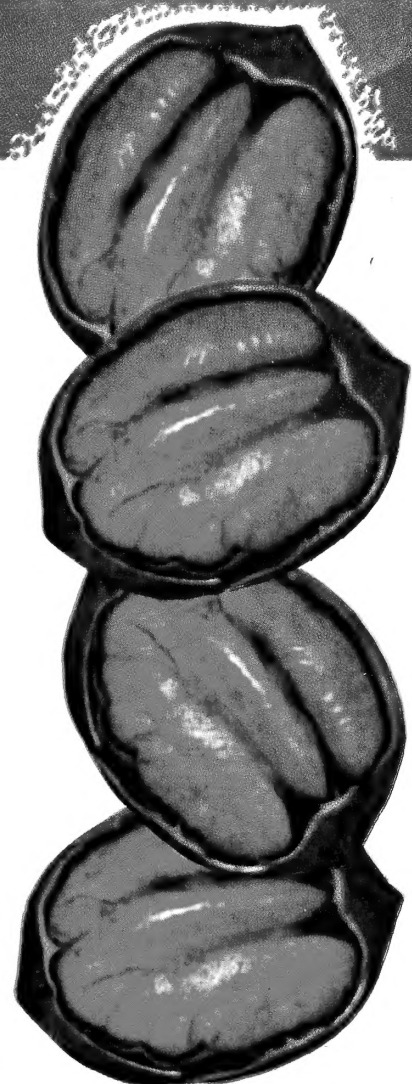

SHELL PECAN TREES

"Money Does Grow on Trees"

Burkett

**For UNSURPASSED SHADE in YOUR YARD —
For EATING PLEASURE and SELLING PROFIT.
Plant Wolfe's FAST GROWING BURKETT**

The leader, and will continue to be, in Western varieties. Burkett is a regular and heavy producer of large, round, fat pecans that are perfect for home use and bring top market prices. Burkett is popular—as long as we have been in business the market demand for Burkett and Garner has never been supplied. It has a rich flavor and its meat content is so high that just a few of these choice pecans go a long way. Plant Western Schley or Garner for perfect pollination. Plant only in altitudes of 600 ft. and up and on well-drained land. Wolfe Nursery's select Burkett's are labelled with one BLUE stripe.

PRICES:

2 to 3 ft. Trees — \$2.69
3 to 5 ft. Trees — \$4.69

5 to 7 ft. Trees — \$6.69

NOW OUR PAPER SHELL PECAN SPECIAL IS OFFERED IN 3 SIZES. Several years ago, many of our customers asked us for a pecan special offer. We came out the next year with our original pecan special. It was 3 trees, 1 to 3 ft. size, for \$5.00. That special meant a saving of \$2.20 to our customers and thousands of good people bought them. Many, many customers who wanted larger trees at a bargain price have written us—so, for the first time, we offer our Gold Medal Collection in three sizes. We are selecting three of our best varieties: Burkett, Stuart, Giant-Mahan, Garner, Success, or Western Schley—those best adapted to your location. Before you know it, these select Wolfe-grown trees will be producing loads of big, delicious paper-shell pecans.

Never has a new strawberry become so popular as quickly as Streamliner. The reasons are simply that it produces so heavily the big red berries of such fine flavor. **PLANTED THIS SPRING IT WILL BEAR THIS SUMMER AND FALL.** Then next year it will produce a tremendous crop in June and after a short time it will start again and keep on right up to freezing. The Berries are Big, Red, Sweet and **DELICIOUS.** Streamliner is self-pollenizing so can be planted alone. Eat them, preserve them, freeze them. We want to repeat: Streamliner has that rich, sweet real strawberry flavor.

PRICES:

10 Plants — \$1.95

20 Plants — \$2.95

30 Plants — \$3.69

Superfection

**Extra Big Crops—Extra Big Fruit
From this NEW Variety**

— A tremendous bearer. You will have delicious berries this summer and fall. And next year it will bear spring, summer and fall. The berries are big, firm and bright red, and red all the way through. Serve them with cream and sugar. For preserves and freezing they are excellent, because they hold their shape and color. It is mighty fine when you can go out in your garden and pick fresh ripe delicious strawberries (saves on the grocery bill too) spring, summer and fall. Strawberries have always been considered the most delicious of all fruits. Now it has been discovered that they are also healthful. A couple of rows across your garden will give you lots of berries. Superfection is self-pollenizing. Water well in dry weather.

GIANT GEM

For years now, the Giant Gem has been one of the most popular of all Everbearing Strawberries. They have borne successfully wherever strawberries are grown and their firm, bright red berries are of extremely high quality. Gem will start bearing 60 to 80 days after planting and will produce for you up until frost.

10 Plants — \$1.29 20 Plants — \$2.29 30 Plants — \$2.98

BLAKEMORE

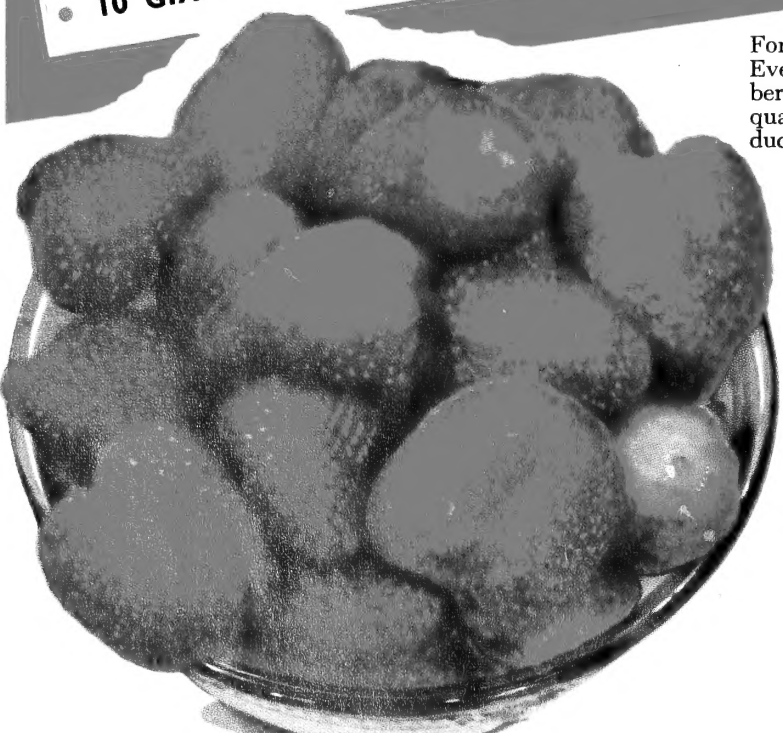

There are probably more Blakemore sold throughout the United States than any other variety simply because it does so well. This new Virus-Free Strain is even better and as soon as available will entirely replace the common Blakemore. Ripens a few days before Senator Dunlap. Especially fine for preserving, canning and freezing because it holds its rich color and shape so well.

SWEET · JUICY · FULL FLAVORED

Pears

DOUGLAS PEAR

The Sugar Pear That Bears Very Young

We've never had any pear variety that offers more production or bears earlier than Douglas. I'll never forget summer before last when we had a Douglas Pear block near a road that goes over the nursery. People that visited us and drove over the place never ceased to be amazed at this whole block of trees just loaded down with fully mature pears. Why, the trees weren't but about 4½ or five feet tall and many of those little trees had as many as ten or twelve pears on them! You'll like the bearing qualities, and the color, and taste of Douglas Pears just as all of those visitors did. It's *Blight-Resistant* and bears consistently each year, ripening about August 15. Labelled with a PINK stripe over a YELLOW stripe.

PRICES:

2 yr. Large Trees — \$2.89 2 yr. Medium Trees — \$2.19
2 yr. Small Trees — \$1.89

GARBER

For eating juicy ripe off of your tree or for preserving for year-round pleasure, Garber is ideal. It is beautifully colored and well shaped, and the tree is vigorous as well as highly disease-resistant. Labelled PINK over BLUE.

PRICES:

2 yr. Large Trees — \$1.98 2 yr. Medium Trees — \$1.69
2 yr. Small Trees — \$1.39

KIEFFER

A variety adapted to all sections — including sections where Bartlett is a failure. It is a sure bet for heavy, consistent crops of large, white-fleshed pears. It is a golden yellow pear that is an extra good cooker and ideal for winter storage. It will keep for a longer time and gets very sweet and mellow after about a month. Kieffer is labelled PINK over RED.

PRICES:

2 yr. Large Trees — \$1.98 2 yr. Medium Trees — \$1.69
2 yr. Small Trees — \$1.39

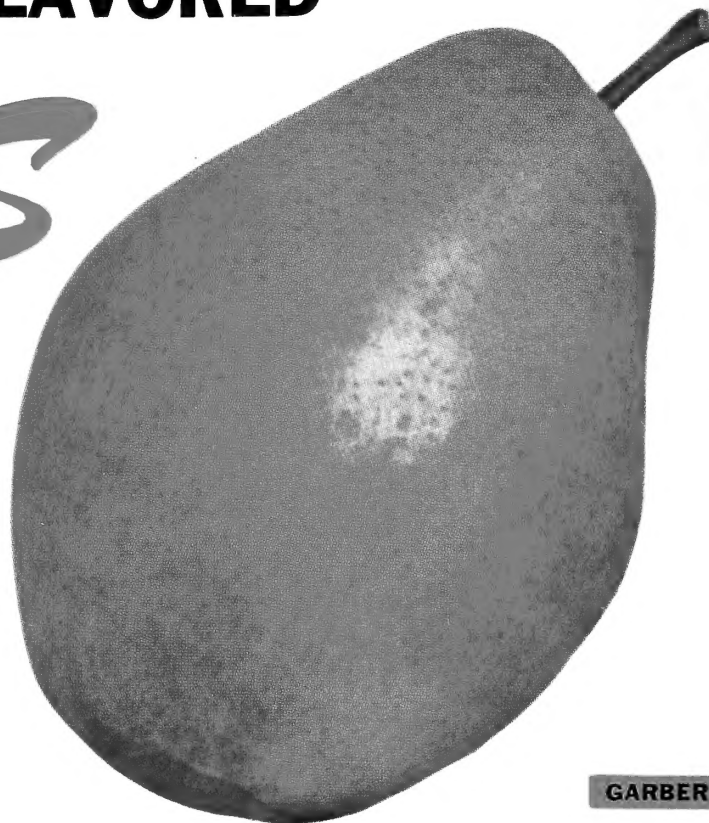

ORIENT

A brand new *BLIGHT-RESISTANT* variety that has been acclaimed outstanding everywhere that it has been tested. Without reservation, we, here at Wolfe Nursery, recommend Orient as perhaps the finest home orchard and commercial pear that has ever been sold. Sturdy, healthy trees, heavy production, high quality, and adaptability to all sections, place Orient on the top of the list of America's Pears. Its skin is lemon-yellow and the flesh is creamy white with a smooth, delicious texture. The shape of the tree makes it ideal as a yard tree. Labeled PINK over WHITE.

PRICES:

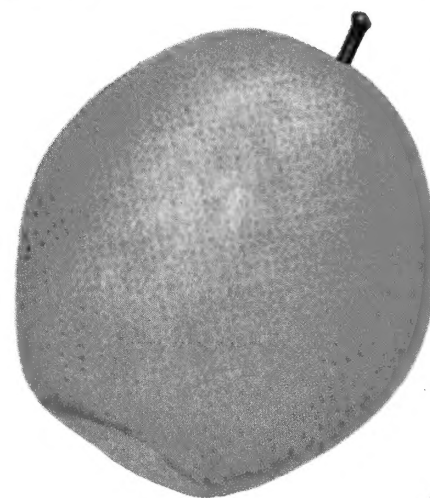

2 yr. Large Trees — \$1.98
2 yr. Medium Trees — \$1.69

HOLLAND

DOUBLE RED
DELICIOUS

GOLDEN
DELICIOUS

KING DAVID

Wolfe HOME ORCHARD & COMMERCIAL **APPLES**

THE Holland Apple

Mother Nature must have decided to combine all the best qualities of apples into one when Holland was originated. When I first saw this grand apple at Weatherford, Texas, I knew it was the Apple that Texas and the great Southwest needed. For many years, Holland has proven to be a consistent, heavy producer of huge, dark, strawberry-red, smooth, firm, juicy-fleshed Apples. Its delightful flavor more than pleases the most exacting taste.

Being a native Texan, Holland is especially adapted to our climate and soils, but has proved outstanding wherever Apples are grown. Holland is the perfect apple for home planting. Of course, its most outstanding point is that it will consistently produce apples for us here in the South. Then, it's self-fertile. You do not have to plant another apple with it to get it to produce. You get heavy production with just one tree. It ripens early — July 20. It will fruit for you the 2nd year following planting. Labelled ORANGE over RED.

PRICES:

2 yr. Large Trees — \$2.50

2 yr. Medium Trees — \$1.95

2 yr. Small Trees — \$1.49

HOLLAND PRODUCES YOUNG

Our Holland Apple orchard was planted in February and bore its first fruit 5 months later in July. Holland is the youngest bearing, heaviest producing apple we have ever grown.

DOUBLE RED DELICIOUS

Pictured left

The old King of red eating Apples that is grown from coast to coast with equal success. By thinning the fruit properly, Double Red will develop into a huge size. Our pure-strain Double Red bears loads of big, sweet, firm apples, that are a treat to enjoy. Trees you receive from Wolfe Nursery are budded from our own bearing orchards. Store-bought apples are picked before they are ripe and don't compare with those picked from your own trees. Double Red Delicious is NOT self-fertile and MUST be planted with either Holland, Golden Delicious, or King David. Double Red is labelled ORANGE over BLUE.

PRICES:

2 yr. Large Trees — \$2.25 2 yr. Medium Trees — \$1.69
2 yr. Small Trees — \$1.29

THERE'S GRAND EATING PLEASURE

IN

Golden Delicious

Pictured left

By far the outstanding Apple in its class. Self-fertile and an excellent pollinator in the home or commercial orchard. Golden Delicious is a mild, juicy, sweet, crisp, white-fleshed apple with new-gold skin that has a distinctive flavor all its own. It is a richly fragrant and appetizing apple that belongs in every home planting. Like Holland, Golden Delicious is adapted to a wide territory and bears very young. Golden Delicious is labelled with an ORANGE stripe over a WHITE stripe.

PRICES:

2 yr. Large Trees — \$2.25 2 yr. Medium Trees — \$1.69
2 yr. Small Trees — \$1.29

KING DAVID

Pictured left

An August Apple that will yield from \$200.00 to \$300.00 per acre. One orchard at Baird, Texas, has produced as much as \$500.00 worth of King David Apples per acre. It also proves that "Money DOES grow on trees." KING DAVID is a medium size, firm, bright red apple with a tart acid flavor, somewhat similar to the old Winesap—juicy. Very prolific producer and healthy grower. Perfect for apple pies, cobbler, apple jelly, jams, and apple butter. Tall all-purpose apple that is one of the best pollinators. Labelled ORANGE over YELLOW.

PRICES:

2 yr. Large Trees — \$2.25 2 yr. Medium Trees — \$1.69
2 yr. Small Trees — \$1.29

WOLFE'S DWARF

FULL SIZE - DELICIOUS FRUIT ON DWARF

WOLFE'S DWARF APPLE TREE

WOLFE'S DWARF APPLE TREES

These attractive small trees require little space, yet often bear the first or second year after transplanting. Highly prized for the small garden where space is limited since they can be planted 10 to 12 feet apart. Although the trees are dwarf in size, they will bear full sized fruit in great abundance. Can be planted anywhere you want a flowering tree as they are extremely decorative in spring when in bloom. Our trees are grown on imported Malling understock to insure dwarf tree. Plant some and enjoy picking fresh, luscious fruit from your own trees.

VARIETIES AND PRICES — 2 yr. — 3 to 5 ft. Trees

Double Red Delicious — \$3.29 — 2 for \$5.95

Golden Delicious — \$3.29 — 2 for \$5.95

Wolfe's

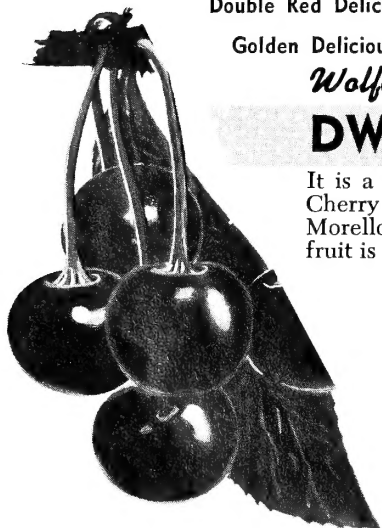

DWARF CHERRY

It is a cross between a very hardy Siberian Cherry and the English Morello. It is a Morello type of pie Cherry and at first the fruit is a bright red changing to a mahogany-red. The skin is tender and the flesh is juicy, meaty and tender. The tree is small by nature, but very productive. Ripens July 5th to 10th, and the fruit will hang on the tree in good condition for about two weeks. Promises to become a leading commercial variety.

THE NEW LOOK IN FRUIT TREES PERFECT FOR HOME ORCHARDS AT CITY OR COUNTRY HOMES

Everybody likes home grown fruit. It tastes better when tree ripened and saves money, too. The newest innovation in home fruit tree growing is Dwarf Fruit Trees. You can plant a whole orchard in your back yard—for five trees can be planted in the same space as one standard size tree. They bear even quicker, often the first year after planting, yet the fruit is generally larger than grown on big trees, and with the same delicious flavor. Trees are dwarf, so small that you don't even need a ladder to pick the fruit and care for the trees, yet strong and sturdy enough to give you bushels of big, luscious fruit. Moreover, these dwarf fruit trees are ornamental. They have beautiful flowers in the spring, the trees are shapely and you get delicious home ripened fruit besides. Enjoy these easy-to-pick dwarf fruits without delay. Order today.

Wolfe's DWARF PLUMS

**SMALL—COMPACT—TREES THAT FRUIT IN
ABUNDANCE—PERFECT FOR THE HOME**

* DWARF HOWARD MIRACLE PLUM

A spectacular variety—so different, so outstanding, that Howard Miracle Plum has been awarded a plant patent—Now we offer, for the first time, the Miracle Plum in colorful, productive, dwarf size trees—The fruit itself is unusually large—average diameter $2\frac{1}{2}$ to $2\frac{3}{4}$ inches—and delicious flavor, not unlike the nectarine, peach, and plum mixed—The tree produces young, most often the second year—The Dwarf Howard Miracle is an attractive ornamental as well as a heavy producer—Plant Dwarf Howard Miracle this year.

PRICE EACH \$3.49 — 2 for only \$6.25

* DWARF BURBANK PLUM

One of the very finest of all eating plums—Now in Queen size, dwarf trees—Takes such a small amount of space—yet—produces full size, delicious fruit in abundance—A large purple plum, ripening about June 25—Plant dwarf fruits in your yard this year.

PRICE EACH \$3.29 — 2 for only \$5.95

* DWARF BRUCE PLUM

You will enjoy fragrant, beautiful blossoms as well as tasty large size plums from Wolfe's Dwarf Bruce Plum trees. These are heavy caliper—two year trees. They will normally fruit the second year after planting. For jellies—jams—eating fresh—for an attractive and unusual yard tree, plant Dwarf Bruce Plum now.

PRICE EACH \$3.29 — 2 for only \$5.95

* DWARF SAPA PLUM

This dwarf Plum Tree—small in size as it is—produces a superior quality fruit in such tremendous quantities that it is difficult to believe a tree so small, could produce so much. This is Mrs. Wolfe's jelly plum and she personally asks us to pass on the following words to you: "We've been growing plums here at our nursery for over 30 years, and I'm sure that over that period of time we have tested over 100 plum varieties. Never, during that period, have I ever seen any plums that made a more beautiful or tasty jelly than the Sapa Plum-Cherry. It has been our family favorite for over 20 years." The Sapa is a bountiful producer of rich, dark purplish-red plums that are just as sweet as sugar. It ripens the latter part of June. Labelled BLUE over PINK.

PRICE EACH \$1.98 — 2 for only \$3.69

The Stars of the Show!

Wolfe's

DWARF PEACH TREES

Throw away your ladders! Stand on the ground and pick bushels of Peaches. Bears second year planted. Our Dwarf Peach trees are grown on a special hardy, dwarf understock which assures you the tree will never grow more than 6 feet tall. Takes a small space in your yard. Heavy producer, enough delicious fruit for you and your neighbors. Will bear for years and years as this special rootstock is very long lived. Especially beautiful when in bloom.

*WOLFE'S DWARF ELBERTA PEACH

Wolfe's true strain—old time Elberta Peaches now growing on unusual, and attractive dwarf size trees—Here are trees that save space—yet you pick large size delicious fruit—often the second year—you will enjoy the fresh fruit—and you will like the “new look” in fruit when you plant Wolfe's Dwarf size fruit trees.

PRICES: Large Size — Each \$2.95 — 2 for only \$4.95

*WOLFE'S DWARF NEW ELBERTA PEACH

An all time favorite Peach variety grown in a brand new way—You, and the neighbors too, won't believe your eyes when you see the abundance of full size, beautiful fruit growing on your Dwarf Trees. The Dwarf New Elberta ripens about June 20—and it's a top notch, all around Peach—good for eating fresh, canning, or freezing—Plant Dwarf New Elberta now!

PRICES: Large Size — Each \$2.95 — 2 for only \$4.95

*WOLFE'S DWARF HALEHAVEN PEACH

We have budded Halehaven on our Dwarf understock because it is such a popular—and outstanding variety—Halehaven is a prize winning freestone that ripens about June 25. A self fertile, attractive Dwarf tree.

PRICES: Large Size — Each \$2.95 — 2 for only \$4.95

*WOLFE'S DWARF INDIAN PEACH

The finest pickling peach in the land—now in Dwarf size trees—This is the old time—red skinned—blood red meat—good for eating fresh, too! Our Dwarf Indian Peach ripens about July 20.

PRICES: Large Size — Each \$2.95 — 2 for only \$4.95

*WOLFE'S DWARF GIANT HALE PEACH

A dwarf size tree—with giant size fruits—that is Wolfe's new Dwarf Giant Hale—A huge yellow freestone variety that ripens July 15—Giant Hale is perhaps the top show winner of all time—Its colorful red skin—golden yellow meat—and unusual size set it apart as one of the most outstanding of all peaches.

PRICES: Large Size — Each \$2.95 — 2 for only \$4.95

WOLFE'S DWARF APRICOTS

Apricot trees have always been treasured as much for their ornamental value—as for their delicious fruit—Finally, we now have available new, attractive, Dwarf size Apricot trees—and what a yard ornamental they make—We offer the finest of all varieties in apricots—The Superb—Plan now to plant Wolfe's Dwarf Apricot in your yard this year.

*WOLFE'S DWARF SUPERB APRICOTS

The very best of all Apricot varieties grown—Now in Dwarf size trees—In Superb we have found a large, richly colored, fine flavored apricot that can be counted on to produce good crops every year in the South as well as in the North. It's thoroughly adapted to our climate and soils and its yearly production of big, orange-yellow fruit is just what literally thousands of home owners have asked for for years. Our search for an apricot that would produce for you every year is ended. We proudly present Superb, a top variety, now in Dwarf size trees.

PRICES: Large Size — Each \$3.49 — 2 for only \$6.50

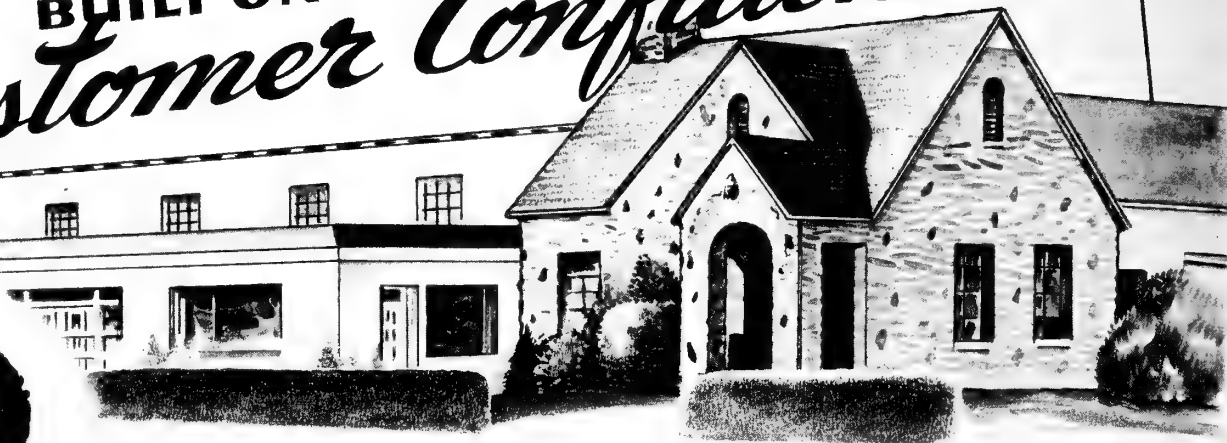

THE WOLFE NURSERY

BUILT ON

Customer Confidence

WOLFE NURSERY
MONEY DOES GROW ON TREES

ROSS R. WOLFE

For many, many years — actually, over a third of a century — good customers have depended upon Wolfe Nursery for their every plant need — Customers who have faith and confidence in what we say and what we sell — Customers that have come to know that the name Wolfe Nursery means quality, above all — Fair, square dealings — prompt, friendly service — and — prices that are actually lower because they are dealing *direct* with the grower — There's no middle man when you buy from Wolfe Nursery . . . Yes, this largest nursery in the South was built on customer confidence . . . But you know it's not that we are large that we earned the customers' confidence — It's not because of our modern buildings — or — the vast acres of ground that we grow our plants on — *It's because of the character of a company that makes it great* — because it is honest with its customers, sincere, conscientious — and genuinely interested in the people that trust us, when they order from us — Won't you order from us today — You'll receive the best in plants — at the fairest of prices — You, like our many regular customers, can depend on Wolfe Nursery.

E. E. RISIEN

E. E. Risien received the Gold Medal for his outstanding contribution to horticulture. This grand old man gave many new and valuable varieties to the Pecan world, such as Garner and Western Schley. By Mr. Risien's request, Wolfe Nursery is continuing his breeding work for bigger and better Pecans.

J. W. STUBENRAUCH

Famous breeder of Frost-Resistant Peach varieties. Frank and Frankie are two of several outstanding creations that have set production records. By his request, Wolfe Nursery is continuing his breeding work in Peaches.

T. V. MUNSON

World famous for creation of over 100 new Grape varieties. Carman is the leader. Received many medals from France and other countries. We purchased the famous Munson vineyards to preserve his many varieties and continue his work.

Money DOES

Grow on Trees

Ross R. Wolfe founded Wolfe Nursery in 1920 and devoted his life to the selection and breeding of better fruit and nut varieties. Pioneer in soil building and diversified farming, paying orchard practices and civic improvements. Served as President of Texas Nurserymen, Pecan Growers, Fruit Growers, Chamber of Commerce, Lions Club, and Director of American Association of Nurserymen. His high standards and business ethics are known by the thousands who have continued to be loyal customers. I, Hugh Wolfe, and every member of Wolfe Nursery, pledge strict adherence to the policies and standards of Ross Wolfe.

IT IS EASY and CONVENIENT TO ORDER FROM YOUR DEPENDABLE WOLFE NURSERY

In the privacy of your own home you can order from Wolfe Nursery the finest, most reliable nursery plants that are grown. Use the simplified order sheet which is in the center of this catalogue. The name of everything in this catalogue is listed on the order sheet as follows: name, color label, size, price each — all you have to write is the quantity and total price. Carry the total of each column to the Special Offers where you write TOTAL. Place your simplified order blank into the handy envelope and send to us today. Note: If trees or plants are sold by specific size, that size is shown on order blank. Many trees are sold as 2-yr. mediums or 2-yr. large trees. This will be shown in "size" Column of the order blank as MED. for medium or LAR. for large.

NURSERY STOCK IS SHIPPED AT PROPER PLANTING TIME

We begin shipping just as soon as the plants are properly cured by frost — Usually this is around Dec. 1st — Sometimes sooner — all depending upon the weather — Some items, such as mums, are not ready until Spring — You may depend on all plants being shipped to you at the *right* time for the best results for you — *Please*, do not ask us to ship before stock is dormant — Order early for early delivery . . .

BE SURE THAT YOU INCLUDE YOUR BONUS PREMIUMS

On page 9 you will find the Free Bonus Premiums you receive when you order from Wolfe Nursery — Be certain to include your bonus selections along with your order.

HOW TO IDENTIFY YOUR TREES BY COLOR CHART

Most of our stock is identified by a color label — Along with your shipment, you will receive a color chart that will properly identify each variety of stock that you order.

SEPARATE SHIPMENTS

Trees, shrubs, small fruits and roses are shipped together and will usually arrive a few days before perennials and bulbs and a few other items. Also, late in the season Strawberries are shipped separately. You may receive several shipments before your order is completed. We do this to assure the best possible condition of your stock when it arrives. This notice is to save you unnecessary correspondence.

"THAT SOMETHING EXTRA"

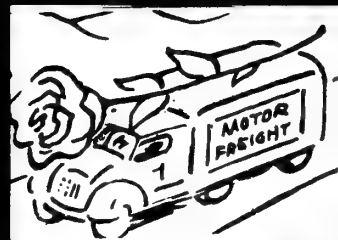

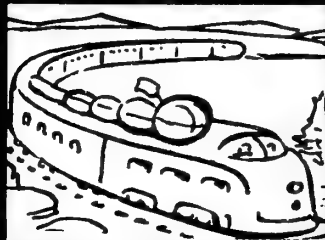

As a Wolfe Nursery customer, you join a group of many thousands of wise home owners who have come to know and depend on Wolfe Nursery — You buy the best, only, from this catalogue — and yet — you pay considerably less than is normally paid for such quality — Yes, you save when you buy direct from the grower — and you receive *fresh Plants*.

HELPFUL PLANTING GUIDE *Free*

With every nursery stock order, we send a Free Planting Guide. It tells in a clear, simple way how to plant so that even if you have never done any planting, you can have success. It tells, also, how to prune, water, care for plants over winter, how far apart to plant, etc.

HOW WE SHIP

LET US HELP YOU SAVE ON SHIPPING CHARGES

You add just 10% to your order — We, in turn, pay all shipping charges for you from the shipping point here at Wolfe Nursery, saving you the extra fee charged on collect shipments.

Although it actually costs us more than 10% to ship your order to you, we are happy to handle it in this manner . . . making it convenient and more economical for you to buy from dependable Wolfe Nursery.

Please Note Our Minimum Order Request

Because of increased costs throughout the nursery industry, we have found that handling orders amounting to less than \$3.00 results in a loss to the nursery. Regardless of this loss, we want to serve your needs and ask that you look through the catalog carefully and order in excess of the \$3.00 minimum. We will lose money in order to please a customer, but ask your cooperation in avoiding asking for shipments that total less than \$3.00.

Wolfe Nursery's Guarantee

1. We guarantee our stock to be true to name. If it proves otherwise, we will replace free or refund the amount you paid us for it.
2. We guarantee our stock to be first quality and to reach you in good, live growing condition. Examine it carefully upon arrival, and if you are not entirely satisfied, return it at once and we will replace it free or refund your money.
3. Our stock is carefully handled, and under ordinary conditions should grow for you. But if it does not, owing to the weather and other conditions over which we have no control, we will replace at half price the following season, you to notify us not later than October 1st, 1960, accompanying your report with a remittance of one-half original purchase price.

We WANT you to be satisfied. If anything is wrong, we want you to write to us.

Below is a photograph of one of our many paper-shell pecan fields . . . Here you find the most select varieties of pecans, carefully grown by experienced horticulturists — The nation's very finest paper-shell pecan trees come from Wolfe Nursery — specialists in nut tree production for over a third of a century. . . .

A PECAN ORCHARD MEANS

YOU CAN INVEST A SMALL AMOUNT IN PAPERSHELL PECAN TREES NOW—AND HAVE INCOME—AND SECURITY FOR LIFE.

LET WOLFE'S HELP YOU PLAN YOUR PECAN ORCHARD

There is no other tree you can plant that will increase the value of your property so much—there is no other tree you can plant that will give you such returns in profit—as will Papershell Pecan Trees—The experienced horticulturists at Wolfe Nursery, world's foremost producer of choice Papershell Pecan Trees, will assist you in the planning of your own Pecan Orchard—Here we give you a brief sketch about Pecan orchards—for detailed, concise information, write Wolfe Nursery today.

HOW ABOUT YOUR LAND —

Our orchard is on sandy land that has a clay sub-soil—You will find, however, that while pecan trees thrive on this type soil, they also are grown very successfully on black land, or the brown loam of West Texas. The land should be well drained, for trees standing in water for any lengthy period of time tend to sour out—If you plan on a Pecan orchard, send us a sample of your soil—We will analyze it and advise you what is required for best results.

AND ABOUT PLANTING —

It is important that certain basic rules of planting be followed—however, it is not at all difficult to plant pecan trees—The trees should be pruned (we will do this for you) and kept moist until planting—Most people who plant large quantities of trees use an auger mounted on the back of a Ford tractor—Use an 18" or preferably a 24" auger and dig to a depth of approximately 3 ft. You will need water to water the plants in at time of planting. Detailed information concerning planting will be forwarded to you at your request.

THEIR CARE IS SIMPLE —

There has always been a certain amount of feeling among people who plant pecan trees that they should not be treated any differently from trees under natural processes. Pecan trees, which seem to be so well adapted to natural conditions in the river bottoms have responded very greatly to cultivation and fertilizers, on the uplands. Other crops may be established in your orchard such as pasture grasses, peanuts, cotton, etc., as long as the young trees are not crowded. If these crops are to be established leave an area 10 feet wide down the row to be cultivated clean at all times. The first year after planting young trees must have ample moisture. There must be a conscientious spray program carried on even the first year. The second year, fertilizer programs may be established. It is well to have your local County Agent or U.S. Experiment Station Supervisor to work with you on these problems.

HOW LONG BEFORE PRODUCTION —

Many of the larger trees in our nursery rows have pecans on them—however, you will find that it will take an average of 6 to 7 years for your trees to come in to really profitable production. From that time on production increases year after year—Pecan trees are long lived—with the proper care your grandchildren will be harvesting crops from the trees you plant.

THE MARKET—ALWAYS GOOD —

We have been in business 40 years, and never have we seen the time that there was not an excellent market for good Papershell Pecans—and the demand is ever increasing. The man with a Papershell Pecan Orchard will find a ready market for his products—and we feel that the price will steadily increase, as will the demand.

THE RETURN THAT CAN BE EXPECTED ON OUR AVERAGE —

Over a period of years we have made a careful study of the production and return from our Papershell Pecan Orchard—We maintain one 40 acre block, which is the source of our budwood for the trees you buy—The most we have received from this 40 acre pecan orchard is \$10,000.00, or \$250.00 per acre. The ten year average for this 40 acre orchard is \$168.00 per acre, or \$6,720.00 per year from 40 acres. Based on these figures, the trees to plant 40 acres for you will represent an initial cost of approximately \$900.00 (using 2 to 3 ft. trees—see cost schedule next page)—you can readily compare the initial tree investment with the average return.

Our papershell Pecan Trees are the Nation's Finest and WE DIG THEM WITH THE GIANT DIGGER

There is no tree so valuable as a papershell pecan. There is nothing you can plant that will add so much to the value of your property as a papershell pecan. Wolfe Nursery has specialized and pioneered the production of the nation's most valuable and profitable papershell pecan varieties—constantly searching out only the best—diligently

breeding new varieties and checking the merits of all new introductions. The world over, Wolfe Nursery is recognized as the nation's foremost producer of papershell pecans.

To be sure of selling you the very best tree means that not only must we take care in growing—recognizing the need for a full, fibrous root system, Hugh Wolfe developed and engineered the ultimate in tree diggers. Now when we sell the best pecan tree—you may be assured that you are receiving the finest root system on that tree. Added up, it simply means that a Wolfe Nursery Papershell Pecan with a full root system is a fast growing—fast producing tree. Sure you get just the best when you order from Wolfe Nursery.

INCOME FOR LIFE

THE COST OF TREES FOR YOUR ORCHARD

Below is a table of costs in planting your papershell pecan orchard—You may select from three different size and price ranges—Example: If you want to plant two acres, using 3 to 5 ft. trees, your total cost for the trees would be \$94.50—Using 2 to 3 ft. size the trees would cost \$74.95—We supply you 18 trees per acre, the spacing for the trees being 35 feet. All prices are F.O.B. Stephenville, Texas.

IF YOU PLANT	2 to 3 ft. Size	3 to 5 ft. Size	5 to 7 ft. Size
One Acre	\$ 39.95	\$ 59.95	\$ 79.95
Two Acres	74.95	94.50	109.50
Five Acres	159.95	199.50	249.50
Ten Acres	289.95	339.50	425.00
Twenty-five Acres	612.50	787.50	1035.00
Fifty Acres	1125.00	1485.00	2025.00
100 Acres	2160.00	2790.00	3960.00

THE TIME TO DO IT IS NOW!

The time to start is now!—for the sooner you start—the sooner your trees will be in profitable production—with an income for a lifetime—We will assist you in every way we can—We do know that a Papershell Pecan Orchard is a worthwhile, and most profitable investment—It is an investment now, for a secure future.

YOU GAIN A YEAR WHEN YOU PLANT WOLFE'S MACHINE DUG TREES

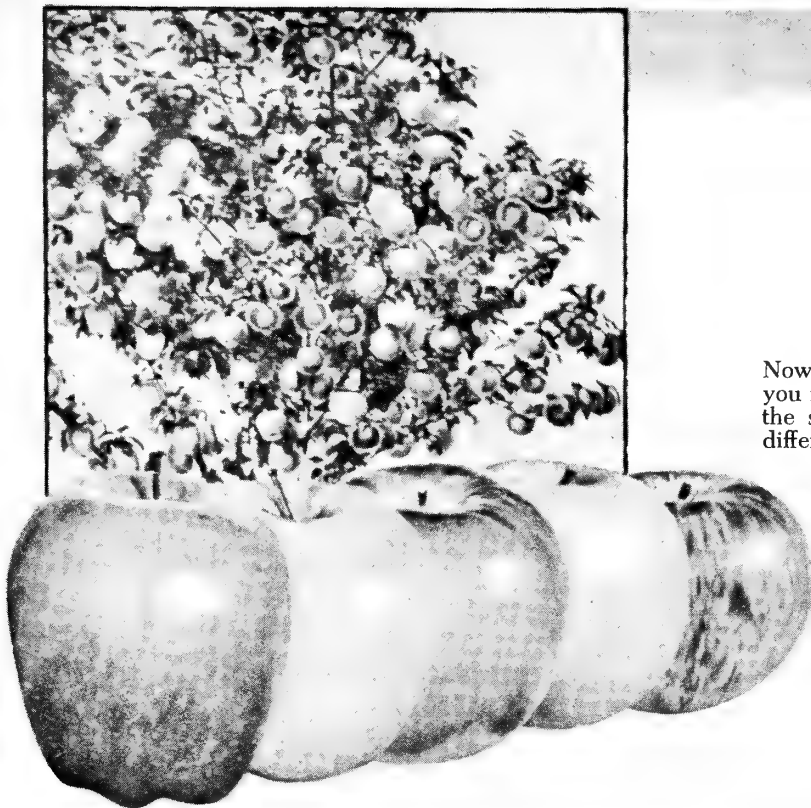

When you plant a tree that has its fibrous feeder roots cut off, you can bet your bottom dollar that that tree is not going to grow a single inch until it has had time to grow the feeder roots back again. In our opinion, more trees are lost due to the lack of sufficient root system, than any other single reason. You do not wait a single day for Wolfe Nursery trees to develop a root system. When we dig trees with our machine digger, all of the fine fibrous feeder roots remain intact. There's no waiting—no delay—and you've gained a year, for your trees start immediate growth. Your trees will live—and—your trees will bear sooner, thanks to Wolfe Nursery's machine digging system that leaves feeder roots intact. Buy only the Best—Buy Wolfe Nursery's machine dug trees.

This is a block of Papershell Pecan trees growing on our north farm—Note the extra wide rows, allowing the trees to develop fully—You can be sure of one thing—you buy the best Papershell Pecan trees grown when you buy from Wolfe Nursery.

This is a Wolfe Nursery Pecan tree—straight as can be—heavy caliper—trimmed, and shaped—trees that grow faster, bear sooner.

5 VARIETIES ON ONE TREE

5 IN ONE APPLE

A COLORFUL - UNUSUAL - ATTRACTIVE TREE THAT FRUITS IN ABUNDANCE

Now you can pick five delicious varieties of Apples from one tree. Yes, you now have the advantage of a small Apple orchard without taking up the space required for planting five separate trees. Just imagine, five different, deliciously flavored Apples all from the same tree. Have

Apples growing all summer—early, midseason, late, all crisp, juicy and wonderful. Some of the finest varieties available including: Double Red Delicious, Double Red Jonathan, Golden Delicious, Yellow Transparent, McIntosh. With its flowers, rich green foliage and fruit, it is attractive enough to plant in front yard.

GROWER'S PRICES:

4 to 6 ft. Vigorous Trees \$3.49

Sweet and Tart CHERRIES

BLACK TARTARIAN

A large, sweet, black cherry, known best as an ideal fresh eating fruit. The Cherry is rich and flavorful—the tree a vigorous, upright grower that is a colorful, welcome addition to any landscape plan. It takes such a little bit of space to grow cherries that no home orchard should be without one or two. The unusual, appetizing flavor of juicy homegrown fruit pays you back a hundred-fold for the small amount of effort it takes to grow and care for the trees. Black Tartarian is labelled WHITE over RED.

PRICES:

2 yr. Large Size Trees \$2.98 — 2 for \$5.50

2 yr. Medium Size Trees \$2.49 — 2 for \$4.50

2 yr. Small Size Trees \$1.89 — 2 for \$3.35

COLORFUL — EASY TO GROW FRUITING TREES

MONTMORENCY

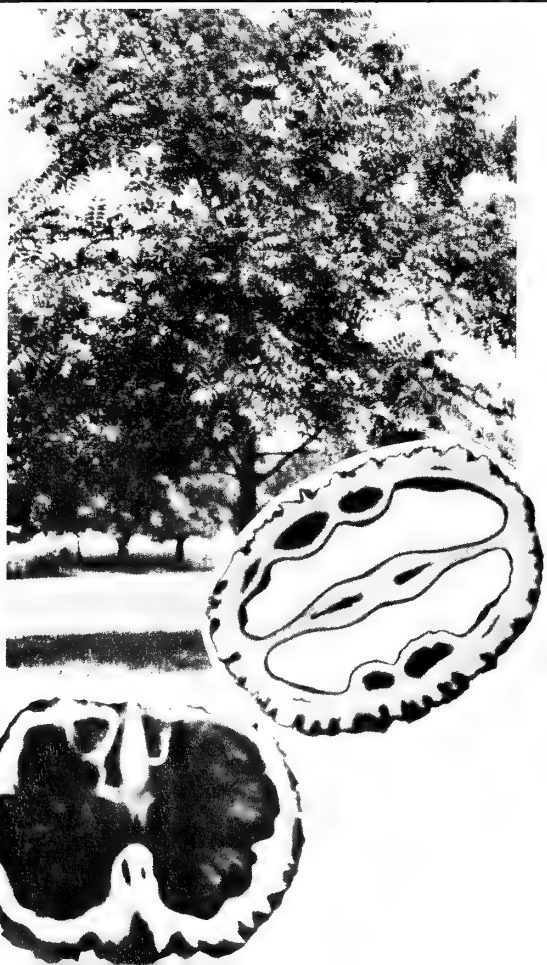

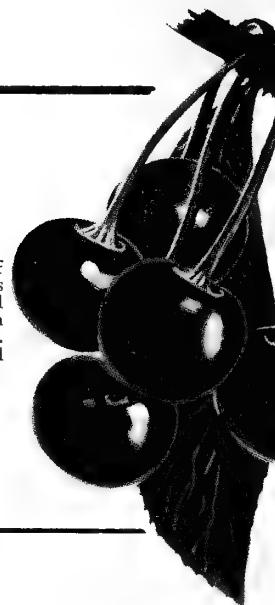

The best known and the most widely planted of America's tart Cherries. The fruit is large size, its color bright red, and its flesh firm. It's the principal canning cherry because of its dependable production and the hardiness and disease resistance of the tree. Plant only in altitudes of 600 feet and up. Labelled WHITE over GREEN.

PRICES:

2 yr. Large \$1.98 — 2 for \$3.75

2 yr. Medium \$1.59 — 2 for \$2.98

2 yr. Small \$1.29 — 2 for \$2.39

Thomas

BLACK WALNUT

A BEAUTIFUL SHADE TREE PRODUCING FLAVORFUL, TASTY, THIN-SHELL WALNUTS

This Jumbo, thin-shell Black Walnut will grow and bear in all sections—from the Gulf Coast to Canada. How easy it is to pick tasty bushels of these big, delicious walnuts from your own trees and store them for those cold winter days for eating fresh or making delicious candies.

Thomas Black is an ideal shade tree. It grows fast—is disease-resistant—and its deep green leaves make valuable shade in your yard. Thomas Black starts bearing the first year in our nursery rows. Some trees are now producing from 20 to 30 bushels of giant Walnuts. Labelled with two RED stripes.

P E A C H E S

DIXIE GEM

A Superb Yellow Freestone

Ripening Early in Spring

Firm and sweet — A Peach that melts in your mouth. A bowl of tree-ripened Dixie Gem with cream and sugar—and man—you'd be a Dixie Gem booster for life. Dixie Gem is a delightfully tasty yellow freestone Peach that ripens early—a full 4½ weeks before Elberta. Along with Texaberta and Melba, it represents the very best of all peaches that we sell. Perfect for eating fresh—quick freezing or canning—and it is well adapted to all areas. Plant the Gem of them all—Dixie Gem—today—now.—Labeled with a blue stripe.

2 yr. Large Trees — \$2.49 2 yr. Medium Trees — \$1.98 2 yr. Small Trees — \$1.49

A true three star special, placing in one offer the top three peach varieties grown today — One each of Wolfe's

• DIXIE GEM • TEXABERTA • MELBA **\$3.98**

TEXABERTA

The Nation's Perfect Peach

A perfect freestone that ripens about July 10. This outstanding peach has not missed a crop at Belton, Texas, since it was originated 24 years ago. Combine the best qualities of all peaches, add a few, and you have Texaberta. It has bright red, juicy flesh around the seed, forming into deep, tender yellow toward the bright red-covered skin. Delicious? — well, you just don't know what good eating is until you have had the juice of a Texaberta running down your chin after a good bite. Texaberta produces in mild climates where Elberta is a failure — and — it is extra FROST-RESISTANT. Texaberta is sold only by Wolfe Nursery and is labelled with a RED stripe.

Melba

PEACH

By far our greatest find in an all-purpose, large, delicious, honey-hybrid peach. It is adapted from coast to coast and is the leader of all frost-resistant varieties. Our show orchard here at the nursery took 10 degrees below freezing while in full bloom and still produced a bumper crop. Melba starts ripening early in June and lasts most of July. No other peach ripens over such a long period. Never has a fruit variety received such unanimous acclaim as Melba. Not one person has failed to say, "That's the best peach I ever tasted." Melba, the Honey-Hybrid, Queen of all eating peaches, is labelled with two RED stripes.

TOP SHOW WINNER

GIANT HALE

GRAND WINNER AT FRUIT SHOWS ALL OVER AMERICA

A Grand Champion Show Peach that draws more attention and brings higher prices on the market than any variety that we know. Giant Hale is a yellow freestone that ripens July 15th. Its skin is a deep, rich red, and its meat a bright yellow. We have Giant Hales come out of our bearing orchard that would weigh over a pound and would be as much as a foot in circumference. It's a giant all right and you will be proud of the results you get when you plant Giant Hale. Labelled YELLOW.

a superb eating plum

SANTA ROSA PLUM

ADAPTED FROM COAST TO COAST

For year in, year out production of choice, large size, beautifully colored fruit, Santa Rosa is considered to be outstanding—It is a widely adapted variety—During a recent visit to the coastal area we observed a Santa Rosa tree literally loaded with superb quality plums. Santa Rosa makes a vigorous—heavy producing tree—Bearing at an early age.

Large Trees — \$1.98 Medium Trees — \$1.49 Small Trees — \$1.29

New Elberta

POPULAR ALL-AROUND FAVORITE

This is a juicy, yellow freestone that ripens about June 20. The first of its class to reach the market, New Elberta has been widely planted as a commercial peach because of its young bearing habits and high quality fruit. It is a good home orchard variety, since it is an extra fine all-around peach. Whether you want to eat it juicy ripe off the tree, can, or freeze it, you'll like New Elberta. Grown and guaranteed by Wolfe, new Elberta is labelled with one PINK stripe.

HALEHAVEN

WOLFE'S ELBERTA

Would you believe that there are over 100 kinds of Elbertas being sold by nurseries? Very few have the original pure-strain that gained world-wide fame for its size, color, flavor, and bearing habits. The buds that we use come right off trees in our own bearing orchard. It's the oldtime Elberta that our parents knew and remembered as being one of the most dependable bearing trees of all time. Our true Elberta, a huge, yellow freestone, ripens July 10th. Labelled with one GREEN stripe.

2 yr. Large Trees — \$1.89 2 yr. Medium Trees — \$1.49
2 yr. Small Trees — \$.98

ELBERTA

INDIAN

(Pictured Lower Left)

A real handful of the most outstanding, red-fleshed, red-skinned peach that is grown. Mrs. Wolfe says it is the finest pickling peach in the land, and women who live in the Stephenville area come to our orchards every year when the Indians get ripe—they buy them and pickle them, and the whole family has a treat all winter long. Not only are they a treat when they are pickled though—they're fine eatin' when picked ripe right off the tree. Our true-strain, old Indian Cling ripens July 20. Indian is labelled ORANGE.

2 yr. Large Trees — \$1.89 2 yr. Medium Trees — \$1.49
2 yr. Small Trees — \$.98

FRANK PEACH INDIAN

One of the best All-around Peach varieties of all time—the heaviest producing variety in our own orchards here at Wolfe Nursery—FARM AND RANCH Magazine says, "The most outstanding peach produced in the Southwest." That just about tells the story, for Frank is outstanding in every respect. It is a large, firm, juicy, yellow cling that ripens August 10th. It's so sweet that most women can them without sugar. Frank's record year-in, year-out production proves its value as an outstanding frost-resistant variety that is a "must" in every home or commercial orchard. Labelled with one WHITE stripe.

2 yr. Large Trees — \$1.89 2 yr. Medium Trees — \$1.49

FRANK

Wolfe's PERSIMMONS-

COLORFUL

Allred Plum

We know of no other fruit tree that offers such beautiful blossoms during the spring — such outstanding, colorful red foliage all during the growing season — and such delicious eating. Allred is a dual purpose tree — not only does it produce one of the nation's outstanding quality plums, it is absolutely unsurpassed as a beautiful and colorful landscape tree. The fruit looks like a dark cherry, only larger, and its flesh is a juicy, deep red. It is ideal for either eating fresh off the tree, or for making a tasty, bright red jelly. The leaves are RED — the stems and branches are RED. The fruit is RED inside and out, and the tiny seed is RED. Allred is truly ALL RED. Labelled with a BLUE stripe over a WHITE stripe.

2 yr. Medium Trees — \$1.89

2 yr. Small Trees — \$1.39

BURBANK PLUM

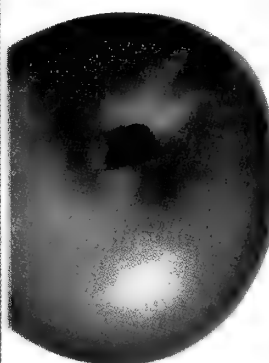

One of the finest eating Plums that ripens about June 25th. It is a large, purplish-red Plum with deep yellow, delicious flesh. A very prolific variety that was created by, and named for, a great man. Burbank is an excellent commercial Plum, and sells in the fancy fruit class. It is labelled with a BLUE stripe over a GREEN stripe.

PRICES:

2 yr. Large Trees — \$1.98

2 yr. Medium Trees — \$1.49

2 yr. Small Trees — \$1.29

BRUCE PLUM

The best large red Plum grown in the South. The tree is very healthy, bears very young and produces loads of Plums nearly as large as a hen egg. It ripens early in June, and growers report getting \$8.00 per bushel on the New York market. Other varieties of Plums must be planted with Bruce for pollination. It is the only variety on our list that is not self-fertile. In commercial plantings, we recommend planting one pollinator to twenty Bruce. Bruce is labelled BLUE over RED.

PLUMS-NECTARINES

DWARF

Sapa Plum Cherry

This dwarf Plum Tree—small in size as it is—produces a superior quality fruit in such tremendous quantities that it is difficult to believe a tree so small, could produce so much.

This is Mrs. Wolf's jelly plum and she personally asks us to pass on the following words to you: "We've been growing plums here at our nursery for over 30 years, and I'm sure that over that period of time we have tested over 100 plum varieties. Never, during that period, have I ever seen any plums that made a more beautiful or tasty jelly than the Sapa Plum Cherry. It has been our family favorite for over 20 years." The Sapa is a bountiful producer of rich, dark purplish-red plums that are just as sweet as sugar. It ripens the latter part of June. Labelled BLUE over PINK.

HOWARD'S MIRACLE PLUM

THE INTRODUCTION of the "Miracle Plum" marks an epoch in the advance of fine fruits for the table. The tantalizing and delicious flavor, the great size, firm amber flesh, combined with its delightful color, place the "Miracle Plum" in a class by itself. Invariably, after tasting the "Miracle Plum," comes the exclamation: "This fruit is truly a miracle. It is something out of this world." Here are some facts about the "Miracle Plum": Extraordinarily large size fruit, average diameter $2\frac{1}{2}$ to $2\frac{3}{4}$ inches. An astounding surprise to the palate, flavor not unlike the Nectarine, Peach and Plum mixed; skin thin and unnoticeable when eating fruit, miniature stone, meat Nectarine-like in quality. Keeping qualities excellent, delicious in preserves, fruit ripens over a long period during July and August. Exceedingly fast growing and quick bearing tree which will bear fruit second year after planting. Beautiful ornamental tree of medium size, foliage persistent, in Autumn richly tinted not unlike the leaves of the Maple. Can be grown in a small garden. Labelled Blue over Orange.

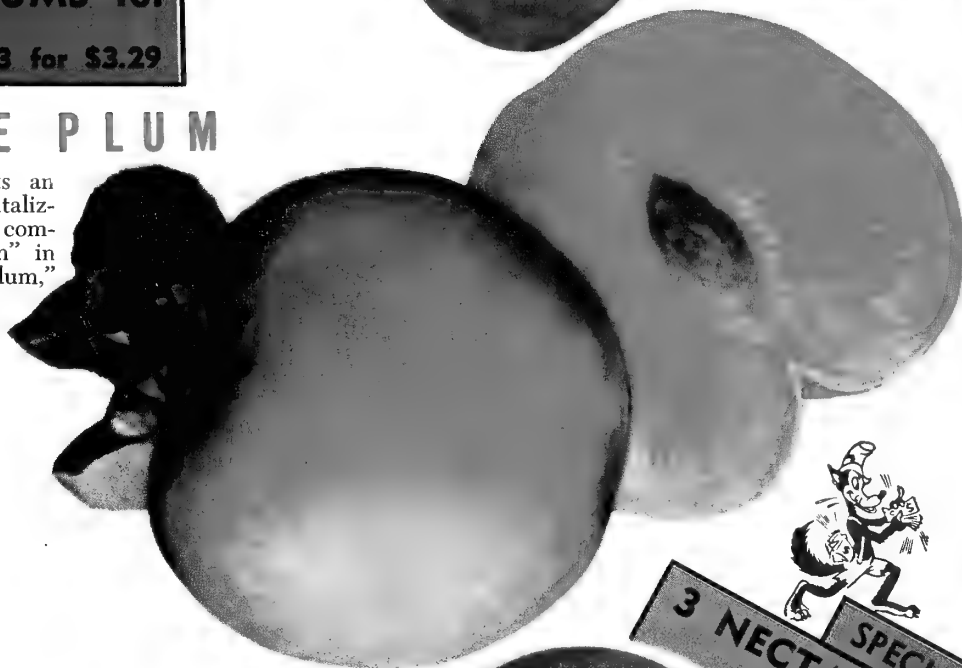

2 yr. Large Trees — \$2.50 2 yr. Medium Trees — \$1.89
2 yr. Small Trees — \$1.29

A distinctively different Fruit

NECTARINE

The Nectarine is such a delicious fruit it has always been a source of disappointment that there has been no Nectarine variety which was dependable in this area. Only now have we succeeded in getting a Nectarine that has stood the test. These big, bright red and yellow fruits are unbelievably good, and so good looking that you will keep a bowl of them on the table just for ornament. (We guarantee they won't stay in the bowl long, they taste too good.) You'll not have to hope for a crop—you'll get it every year without fail. Add to all this the fact that the big spring blooms have such a lovely clear pink color that it is almost as ornamental as the finest flowering Peach—after all this, does it sound as if you could afford to be without it? Ripens in July.

ROSSBERRY

THE INCOMPARABLE

ROSSBERRY

IT HAS EVERYTHING and is the sensation of quick-freezing. It is huge in size, and has the unusual combined flavor of Raspberry, Loganberry, and the sweet Blackberry. It fruits the first year after planting and withstands cold and drought. It actually likes dry weather. Remarkably free of the usual diseases. Small, soft, seeds are very few. Now growing in over sixty Federal and State Experiment Stations. First berry to ripen and a very heavy producer. 600 gallons per acre. Grows on a trellis and very easy to pick. As told by the original grower, Rossberry was created by Luther Burbank and went undiscovered for many years.

PRICES:

10 Plants — \$1.95	30 Plants — \$4.95
20 Plants — \$3.69	40 Plants — \$5.95

THERE IS BIG MONEY IN A BERRY PATCH

and S. J. Boase proved it!

S. J. Boase, of Route 1, Stephenville, Texas planted a small patch of Dew Blackberries in the spring of 1957—In the summer of 1958 his patch gave him an average return of \$272.00 per acre—This year in the summer of 1959 his average return was \$720.00 per acre! Mr. Boase's investment in berry plants was only \$193.60 per acre—See more information below.

*Greatest
Berry
I've Ever
Found*

Juicy cobbles made with fresh berries, home-made jam with gobs of butter and hot biscuits — those are the things that the whole family can enjoy. The eating pleasure that you get from your own berry patch is worth time and time again the little amount of work it takes to grow berries.

THORNLESS BOYSENBERRY

A huge maroon-red berry that grows on an absolutely thornless vine. Its juicy, tangy flavor makes it ideal for fresh eating, canning, cobbles, jams, pies, or jellies. Thornless Boysenberry is adapted the country over and it thrives and produces heavily on back yard fences.

PRICES:

PLANT A BERRY PATCH FOR EXTRA INCOME — HERE'S HOW TO DO IT

You can make extra money, just as S. J. Boase (above) has done—Berries are easy to plant, easy to grow, and require little care—Planting berries in 6 ft. rows, 3 ft. apart, here is your cost—(¼ acre \$60.50) (½ acre \$114.95) (1 acre \$193.60) (2 acres \$363.00) (5 acres \$847.00) (10 acres \$1,573.00)—We will supply you with complete information concerning planting and care.

APRICOTS

**SELECTED HEAVY BEARING VARIETIES
FOR YOUR HOME ORCHARD**

SUPERB

*Most Outstanding of All Apricots
Adapted to the Southland*

In Superb we have found a large, richly-colored, fine flavored apricot that can be counted on to produce good crops every year in the South as well as in the North. It's thoroughly adapted to our climate and soils and its yearly production of big, orange-yellow fruit is just what literally thousands of home owners have asked for years. Our search for an apricot that would produce for you every year is ended. We proudly present Superb. Labelled with a GREEN stripe over RED.

2 yr. Small Trees — \$1.89

WE GROW OUR OWN TREES.

IT PAYS TO BUY DIRECT

FROM THE GROWER

GOLDEN CLUSTER

Golden Cluster

A medium to small prolific Apricot with a smooth light orange-yellow skin. The delicious yellow flesh is firm but juicy. Not dry like some common varieties of Apricots. Apricots should be cultivated very shallow as the feeder roots are close to the surface. Golden Cluster is labelled with a GREEN stripe over a WHITE stripe.

PRICES:

2 yr. Large Trees — \$2.49
2 yr. Medium Trees — \$1.98
2 yr. Small Trees — \$1.49

MOORPARK

The most popular commercial apricot grown and adapted to most all sections. It is rather a large Apricot with tender, sweet orange flesh. It separates easily from the small seed and is a grand variety for eating fresh, canning, or drying. Hangs on the tree remarkably well. Every home orchard should include apricots, for the tree-ripe fruit has a flavor that just can't be matched. Moorpark is labelled with a GREEN stripe over a BLUE.

From the fertile fields of Wolfe Nursery come the nation's finest roses — big, vigorous plants with full, fibrous root systems . . . All Wolfe Nursery roses are strictly graded — checked time and time again — selected and packed with loving care when shipped to you. You will be pleased and proud when you buy your Jumbo Roses from dependable Wolfe Nursery . . .

*Chrysler
Imperial Rose*

Most Spectacular Red-Red-
Rose in the World — — —
None other like it!!!

(Left) Like a precious stone, Chrysler Imperial displays jewel-like tones of vivid crimson in the broad, open petals, heightened by dark overtones of glowing oxblood-red, with the gem-like luster of garnets in the folds. These tones retain their sparkling beauty throughout the life of the flowers. Evolving from long, tapering, velvety maroon-red buds, this lovely rose, like the facets of a diamond, changes with the play of light; as it opens to its full 4½ to 5-in. size, the iridescent shades of red become more brilliant. The abundant, very large, high centered blooms are borne singly on perfect, sturdy, medium long cutting stems. The beautifully formed flowers have 40 to 50 wide petals, symmetrically arranged and overlapping. This All-America selection winner for 1953 has a well balanced, compact bush with abundant dark green foliage. Plant Pat. No. 1167.

PEACE

PEACE

Certainly this All-America Winner for 1946 is one of the most beautiful of all Roses. Perhaps its chief beauty is the great range of colors through which it passes. The full ovoid bud is deep yellow, with the edges of the petals picoted cerise. It slowly opens to a glorious 5-inch bloom with shades of canary-yellow, pale gold, cream, pearly white, and apple blossom. Although the bloom is unusually large, double and long-lasting, the dainty coloring gives it marvelous beauty. The plant is just as large and fine as the blooms, being above average in size, and the flowers are borne on long straight stems above the vigorous shining foliage. The fragrance is moderate. No such amazing combination of strong stems, fine lasting qualities, and huge, perfectly formed, delicately colored Roses, ever existed before. Plant Pat. No. 591.

CHARLOTTE ARMSTRONG

Since its introduction when it won the sole All-America Award, Charlotte Armstrong has become the favorite rose in thousands of rose gardens throughout the country. In our opinion, it remains the top All-America Winner out of all the fine varieties given this honor. Certainly it is one of the finest roses that we grow here at Wolfe Nursery. If you are planting it for the first time, you will marvel (as we still do) at the beauty of the lovely, long carmine-red buds, with their perfect streamlined form, and at the magnificent open blooms of rich cerise. The open flower is usually 3 to 4 inches in diameter, with about 30 petals, high-centered, remaining a beautiful rich color until the last petals drop. No printer's inks can illustrate the richness of its color—you have to see it to appreciate it. Plant Pat. No. 455.

As Magnificent as it's Namesake

HELEN TRAUBEL

Once in a while a new rose appears which from the very first displays such superior qualities that there is never any doubt about its ultimate popularity. Such a rose is Helen Traubel, which we think is probably the finest new variety that we have introduced since Charlotte Armstrong. The All-American judges have confirmed our opinion by honoring it with an AARS Award for 1952. In Italy the Gold Medal of Rome was conferred upon it in June, 1951. The color varies with the weather—sometimes a light sparkling pink, more often a luminous apricot color (its most characteristic shade), sometimes verging into a rich bronzy orange. Its unusually large, long slender buds are magnificent in themselves.

HELEN TRAUBEL

The Glorious

FLORIBUNDA

CREATE

Floribunda varieties planted in solid beds give a magnificent display all summer long. People in Europe have long known this for they've jeweled the continent with millions of them. You get lovely effects with these cluster roses by planting

Fashion

Only Rose Ever to
Win 6 International
Awards!

All America Awards Winner for 1950, Fashion blooms are bright coral-peach, a most amazing color because it is so brilliant and, at the same time, so soft and lovely. There is no other Rose color like it. Add to this the exquisite form of both the bud and open flower, and you will see why this Rose is being hailed with such enthusiasm. It has won the National Rose Society's Gold Medal in England and the famous Bagatelle Gold Medal in France. Scores and comments of the All-America judges gave it high praise, also. The open blooms are about 3 inches across or larger. Buds open slowly to a wide-open flower with gracefully waved petals and a rich display of golden stamens. Pleasing old-Rose fragrance. Plants are good and vigorous, bushy, with neat, small, glossy foliage. It reaches a height of 2½ to 3 feet, with few thorns. We consider it a gem, as it brings a brand-new, enchanting color to Floribunda Roses. Plant Pat. No. 789.

AAA Jumbo Grade — \$2.00 each

3 or more — \$1.75 each

FLORADORA

The breath-taking color of Floradora makes it one of the outstanding Floribundas. Very deep orange-red buds open up to 3 to 4 in., cup-shaped blooms of sharp vermilion-red. These flowers appear in strong bright clusters of 4 to 10 blooms. The plant grows 2½ to 3 ft. tall and is constantly in flower. Shiny green, wax-like foliage is rugged and forms an excellent contrast to the red blooms.

AAA Grade — \$1.19 ea.

AA Grade — \$.98 ea.

LAVENDER PINOCCHIO

A true clean lavender enriched by a mass of golden yellow stamens in the open bloom. This lovely color changes at various stages. The masses of tight buds are warm chocolate-brown overlaid by dusty pink. As they open, this dusty pink is followed by smoky pink-lavender. At this stage the edge of each petal is delightfully frilled and has a clean delicate lavender border. Outer petals are darker than those in the center, but when at last the flower is wide open, the colors soften to dainty silver-lavender with faint suggestions of rosy pink. (Pl. Pat. No. 947)

AAA Jumbo Grade — \$1.50

IMPROVED LAFAYETTE

Especially bright crimson, velvety-petaled flowers 2½ to 3 inches across. Makes a constant show in the gardens. Produced in generous clusters, the dainty buds open slowly until each cluster bursts with handsome crimson flowers. These enormous clusters last two and sometimes three weeks. As one flower finishes, new buds open to take its place. Sturdy and hardy, with an 18-inch disease-resistant bush.

AAA Grade — \$1.19 ea.

AA Grade — \$.98 ea.

PINOCCHIO

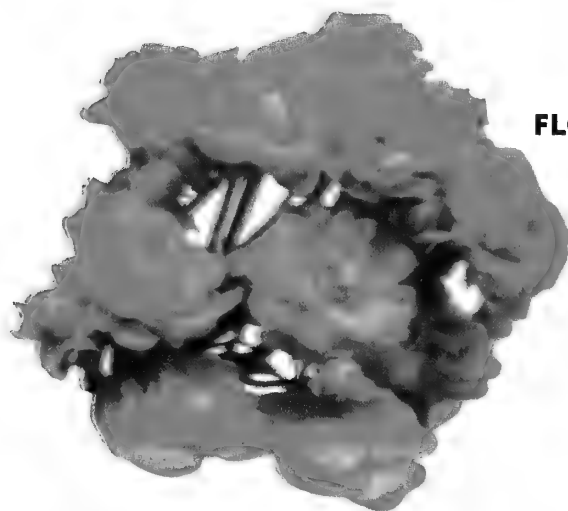

Thousands of our customers know and love the widely acclaimed Pinocchio Rose. Its delicate beauty goes straight to your heart. Great clusters of gracefully pointed buds of rich salmon flushed with gold at the base open up to long-lasting exhibition-formed blooms like miniature Hybrid Teas. As the "sweetheart" flowers open, they change to soft, lucid pink and shade into deeper pink at the edges. This persistent bloom continues all summer long. The 20 to 24-in. plant is extremely hardy. The ample, rich dark green foliage is very disease-resistant. Carefree as the puppet Pinocchio are the captivating buds and blooms of this perennial favorite. Cool pink masses are refreshing. (Pl. Pat. No. 484)

AAA Jumbo Grade — \$1.50 ea.

GOLDEN

Goldilocks

Here is the long-awaited true golden yellow floribunda. The buds are ovoid in shape, resembling miniature hybrid teas in form, and a rich golden yellow in color. Opening slowly and gracefully, they pass through many attractive stages. Goldilocks lasts a long time, as fresh new buds keep replenishing the overall effect of the golden yellow mass. The foliage is glossy, dark green, decorative and abundant. Perfect for border, bed, specimen or base planting.

AAA Jumbo Grade — \$1.50

3 or more — \$1.25 each

ELSE POULSEN

The Floribunda that no one ever tires of, is always a mass of blooms. In June its colorful myriads of blossoms are a glorious sight. All through the summer the buds and flowers continue to attract interest. Buds are lively red, opening to shell-pink color. The healthy, vigorous plants are sturdy yet delicate in appearance. An established plant in a sheltered position will grow 4 ft. tall or more. Large bloom clusters in spring and continuously all season. Abundantly branched, with lush, green foliage, it is extremely hardy.

AAA Grade — \$1.19 ea. AA Grade — \$.98 ea.

CLIMBING PINK RADIANCE

The new everblooming Hardy Climber and Pillar Rose. This variety fills a long-felt need for a real pink, full-petaled, hardy climbing rose. Another most appealing quality is its pleasant spicy and penetrating fragrance. The blooms last for days after cutting. Climbing Pink Radiance produces successive crops of flowers throughout the summer, ending with a gorgeous display in late fall. It has a neat, compact habit which allows for easy training on a 6 to 8 foot trellis or arbor; also does well when trained as a "pillar" rose. Labelled RED over YELLOW.

PRICES: No. 1 Jumbo Bushes — \$1.19 No. 1 Large Bushes — \$.98

CLIMBING TALISMAN

A "SPORT" of the beautiful bush Talisman, but a much heavier blossoming Rose. The two-toned, exquisite, long buds appear all over the graceful erect stems early and continue all through the blooming season. Talisman is labelled BLUE over ORANGE.

PRICES: AAA Jumbo Grade — \$1.19 AA Large Size — \$.98

CLIMBING TALISMAN

PAUL'S SCARLET

One of the heaviest blooming roses of all time — Paul's Scarlet — For color in your landscape.

100 for \$9.95

Good Looking—Good Eating—Rhubarb—Asparagus

VICTORIA RHUBARB

The first plant to furnish fresh sauce for pies in springtime. Will last a lifetime. Will provide lots of juicy stalks after the first year. Plant two feet apart. Set the roots straight up and down, with the crown about two inches below the surface of the soil. Last fall, Mrs. Wolfe planted Rhubarb in her side yard. Not only did she have an abundance of juicy rich Rhubarb for sauce, the huge, caladium-like leaves of the dark green plant added unusual color and beauty to her landscape.

RHUBARB PRICE — 12 for \$1.95

MARTHA WASHINGTON ASPARAGUS

Introduced by the U. S. Department of Agriculture a few years ago. Produces large, tender, green tips. Famous for its mild, rich, full flavor. A few roots produce many tips. Plant them 12 inches apart in the garden. In the field, the rows can be 4 feet apart. 5,000 roots will plant an acre.

ASPARAGUS PRICE — 12 for \$1.25

TEMPTING — TANGY GOODNESS

Wolfe's RUBY RED CRAB APPLE

"Most valuable of all red Crabs," because of very heavy production, attractive crimson red color, good size, and unexcelled quality of its jelly, preserves, jams, and pickles. Tree is dwarfish. Pink blooms and ruby-red fruits make it a fine lawn ornamental. Bore ½ bushel at 2 years. Labelled ORANGE over GREEN.

PRICES:

2 yr. Large Size Trees \$1.98 — 2 for \$3.75

2 yr. Medium Size Trees \$1.69 — 2 for \$2.98

COLORFUL FLOWERING CRAB APPLE

The most popular Flowering Crab. Beautiful in bloom, beautiful in foliage, beautiful in fruit. In the spring, it is completely covered with the fragrant, bright pink flowers. From midsummer to frosts, the clusters of small, red fruit gleam brightly along the branches. It makes fine jelly. In the spring, the foliage is a rich maroon. Perfectly hardy, easy to grow, thriving in any soil.

More and more, landscape architects are recommending Flowering Crab as the most desirable of small size ornamental trees—Its early blossoms mean Spring in no uncertain terms.

PRICES:

2 yr. Large Size Trees \$2.29 — 2 for \$4.29

2 yr. Medium Size Trees — \$1.69 — 2 for \$3.29

COLORFUL-HARDY PLANTS *for the* Southwest

DEUTZIA *Southwestern Snowflake* PRIDE OF ROCHESTER

Flowering Shrubs provide a major portion of the contrast in our landscapes and therefore should be chosen, and placed with care by the discriminating gardener . . . Deutzia — our Southwestern Snowflake is one of the foremost of all our flowering shrub varieties. It is a vigorous, free blooming variety that steals the show with its delightful double white flowers tinged with soft peach pink — It is a valuable plant that will bring contrast, color and lovely beauty to your landscape. . . .

SELECTED 1 yr. Plants — \$.98

SOUTHWESTERN SNOWFLAKE
(DEUTZIA — PRIDE OF ROCHESTER)

ENGLISH IVY SPECIAL
Nearly everyone that plants needs at least 3. Here's a special offer on 3 plants.
3 for \$2.10

GIANT HYBRID COLUMBINE

Columbine brings to your garden or a bouquet, a "fairy" touch that no other flower can give. The colors are so rich, so clear, so exquisitely lovely and they blend perfectly. The flowers are much larger than pictured, up to 3 inches across, with spurs 4 to 5 inches long. Come up year after year, grow 2 to 3 feet tall and bloom so generously in the spring. Thrive in ordinary soil and prefer partial shade, especially from afternoon sun. Our plants will bloom this season.

4 plants only \$1.98

BLEEDING HEART

A favorite in Grandmother's garden half a century ago, it is equally popular today. Grows 2 feet tall. Thrives in partial shade, but will grow in full sun. Attractive foliage. Graceful heart-shaped pink flowers in April-May. The plant becomes larger, more beautiful, each passing year.

PRICE: \$.98 Each

BLEEDING HEART SPECIAL

3 Bleeding Hearts for a group or mass planting. You save at sale prices.

PRICE: \$2.39

EVERGREEN ENGLISH IVY

Ugly bareness becomes a spot of beauty when buildings of stone, concrete, or stucco, and "hard-to-cover" slopes and banks are covered with dense, rich glossy evergreen foliage of English Ivy. Famous for long life. Mass effect can be created by planting 2 to 3 feet apart.

PRICE: \$.98

GROUP SPECIAL
Southwestern Snowflake
3 for \$2.95

MEXICAN TUBEROSE

Flower spikes 30 to 36 inches tall, with very fragrant, waxy-white flowers from July to frost. Very fine cut flower as a single spike will perfume a room. Often 20 or more flowers on a single plant. Grows in full sun or part shade. Plant the bulbs outdoors after all danger of frost is over and the ground has become warm, covering with 2 inches of soil. For earlier blooms, you can start them indoors in pots and transplant outdoors when danger of frost has passed. They are attractive in the border and excellent for cutting. Dig in the fall and store just like Glad bulbs. Our large best quality No. 1 Bulbs will produce far more flowers than the small No. 2 size.

6 for .98

FORSYTHIA

The first shrub to bloom in early spring, its bright yellow flowers light up the yard. Grows 6 to 8 feet tall, in sun or partial shade. Hardy, easy to grow, thrives in ordinary soil. The light green bark is attractive all winter.

Vigorous 2 to 3 ft. Plants — \$.98

MODERN DOUBLE FRENCH

Lilacs

A COMPLETE RANGE OF

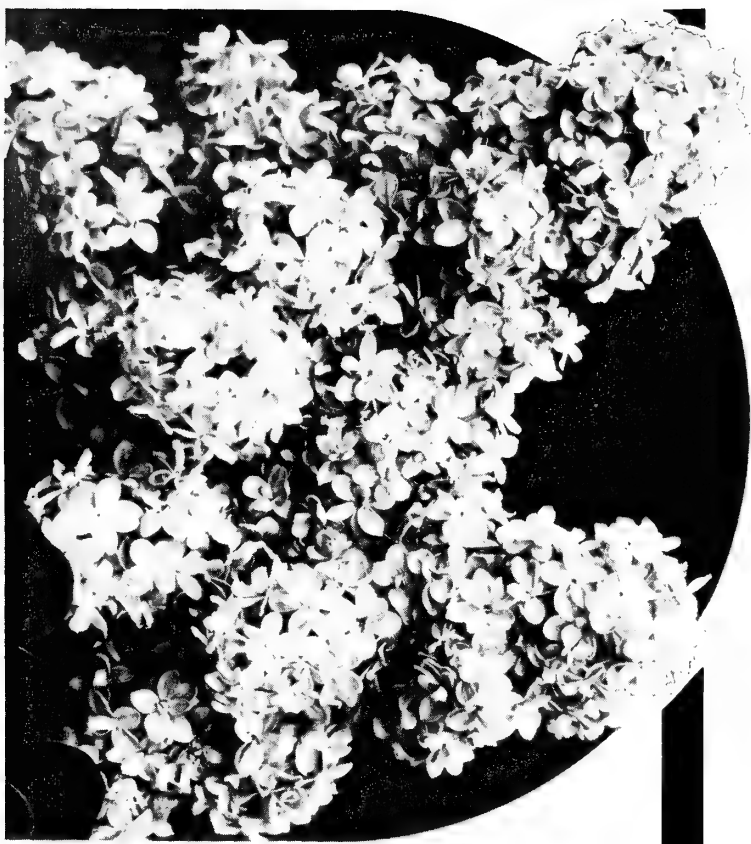

COLORS IN ONE SUPERB COLLECTION.

HUGE-DOUBLE BLOOMS ON EACH PLANT.

DOUBLE FRENCH LILAC

You can't match the exotic beauty of FRENCH HYBRID Lilacs. They bloom very young after planting and grow from 6 to 8 feet tall. Many cities are making them the city-wide shrub. We offer these four varieties as a collection at almost the price of one plant. Set them about 2 feet apart so the blooms will overlap. They blend perfectly together and such an arrangement will make a beautiful color scheme.

SPIREA SCARLET MIST

(Anthony Waterer)

**Special
Offer**
3 for
only
\$2.69

Spirea SCARLET MIST (ANTHONY WATERER)

This is our most popular low-growing shrub, planted all over America. Makes a neat, rounded bush 2 to 3 feet tall. Rosy-red flowers cover the entire plant in the spring and bloom at intervals throughout the summer. Perfectly hardy, grows in sun or part shade, any ordinary soil. Excellent for foundation planting, for corners, in front of taller shrubs, as individual specimens. Makes a low bushy hedge that requires no trimming. In almost every yard there are places where Red Spirea will add permanent beauty.

PRICE: \$.98

(Plant Pat. No. 492)

SENSATIONAL NEW

Weigela

BRISTOL RUBY

A superior Weigela, producing immense quantities of sparkling, ruby-red, bell-shaped flowers. After the spectacular June to July display is past, another fine showing of bloom appears in late summer and autumn. Grows into a perfectly formed, well-rounded, 6 to 7 foot specimen. Plant Pat. No. 492.

PRICE: \$1.50

SPECIAL WEIGELA BRISTOL RUBY

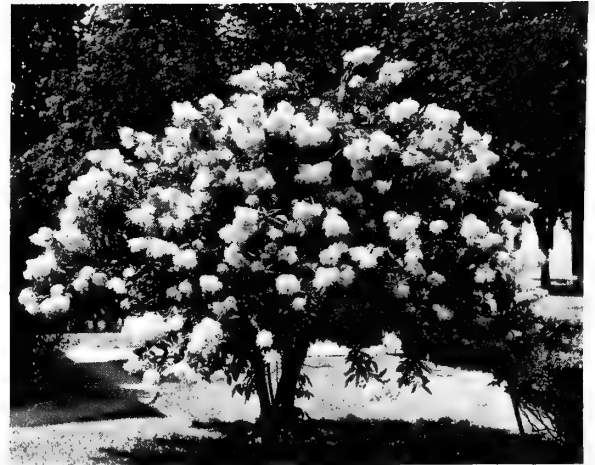

When a plant is so widely accepted as Weigela Bristol Ruby we receive numerous requests for a Special price on groups — 3 plants at a savings.

\$3.98

Colorful HYDRANGEA P. G.

This grows in sun but prefers partial shade, does well even on north side of house. Giant cone-shaped flowers are white at first, then turn pink and bronze. When cut, they last for weeks inside. Grows 4 to 6 feet tall, blooming from mid-summer to frost.

Heavy 1 yr. Plants — \$1.69

Wolfe's Wonder SNOWBALL

In spring this shapely shrub is completely covered with blooms so fragrant they perfume the entire yard. Flowers open light pink, becoming white. A perfect shrub, 5 to 6 ft. tall and just as wide. Deep green foliage colors bronzy-red in fall. Very hardy, grows in full sun or part shade. Planted from coast to coast. Makes a magnificent specimen and very attractive in any shrub planting. Remember that you should never use Sulphur dust or spray on or near any Viburnum.

Cardinal Shrub

(WEIGELA VANICEK)

The Shrub of the Century

Every so often there comes to our attention a plant so unusual, so outstanding, so spectacular that it merits inclusion in our catalogue. Such a plant is the new Weigela "Cardinal Bush." It is a hardy plant—a flowering shrub that can be depended on to produce its blooms in exciting abundance each year. All of its many branches are engulfed with trumpet-shaped, red blossoms. It is an everblooming flowering shrub that complements your landscape the year round with delightful wine-red sprays. Its foliage is rich and luxurious and the contrast of color between bloom and foliage is a joy to see. Usually new introductions are priced high because of the expensive research that a reputable nursery must undertake, but we know that the Weigela "Cardinal Bush" is destined to great popularity here in the South—so—we are pricing it low, depending on its success in your yard to bring repeat orders from you as well as your neighbor. Order today for the newest, the best, from Wolfe Nursery.

Select 1 yr. Plants — \$1.95 Each

THE MOST BEAUTIFUL FLOWERS GROWN

Mrs. Ross Wolfe's

GIANT DAHLIAS

Our most colorful, most exciting collection of time tested, proven Dahlias for the Southwest—Selected especially for you by Mrs. Ross Wolfe—Each of the five varieties in our Giant Dahlia Collection were selected on the basis of outstanding color—size of the blooms—vigorous growth, and keeping quality—The color selections made by Mrs. Wolfe this year are lavender blue—Deep, rich yellow—unusual cyclamen pink—a carmine red—and pure, snow white. All five select Dahlias at a money saving price to you.

All 5 for only \$1.95

ROSA MULTIFLORA

The Miracle Living Fence

The very best, most colorful, all-purpose hedge grown. It makes a dense, thorny barrier that stops traffic across your yard or garden. And just as it keeps livestock in a field, it keeps your pre-school youngsters from wandering out of the yard. In the spring, even if trimmed, it bears clusters of small, white, wild roses, and, in the fall, the berries turn a pretty bright red. If you let it grow, it will get tall enough to make a good screen. Ideal on terraces because it stops washing. Does not sucker or spread so does not interfere with nearby plants or garden, and you'll find it easy to run a lawn mower under its arching branches. Grows 2 ft. to 6 ft. high, depending upon how you trim it. We do not offer the small conservation grade as we believe the loss in planting is too great for that size plants. And our Super Grade will make you a hedge in a hurry.

Beautiful BRIDAL WREATH

BRIDAL WREATH — SPECIMEN OR HEDGING PLANT

Without a doubt one of the most useful and widely used shrubs in the United States. Blooms in April and May, throwing out long branches that curve and droop to the ground and covered with a mass of pure white flowers that suggest a fountain of snow. May be used singly, massed, or as an informal hedge.

Our Most Popular Hedge

Amoor River Privet

(PICTURED PAGE 43)

If you do not know what hedge to plant we recommend this very highly. It is by far the most popular hardy trimmed hedge. It makes a permanent hedge, lasting for generations. Not only adds beauty, it also protects your yard, especially if you have a corner lot. It is fine for a division line between yards. Can be trimmed to any desired height, making a thick dense hedge, without thorns, right down to the ground. Requires trimming only twice during the summer. But if you trim it 3 or 4 times it becomes more dense and bushy. Leaves are rich, dark green, and hang on until very late fall. Plant 1 foot apart.

THE FASTEST GROWING SHADE TREE OF ALL TIME

WOLFE NURSERY'S

Fabulous

FRUITLESS MULBERRY

From the first day—the first minute—that we saw this big-leaved, smooth-barked shade tree, we knew that it was destined to be the most sought after—most desirable shade tree of all time . . . We planted and tested—and it exceeds our fondest expectations—It grows like a weed, twice as fast as any other tree we've ever seen. It grows as pretty and straight and branches as perfectly as you could ever ask. It is hardy and absolutely bears no fruit. Its leaves are huge, even on young trees; they are larger than your hand. Its trunk and branches are as smooth as can be . . . We are enthusiastic over this new shade tree. It is the best we have seen. It answers the need of everyone for a fast-growing—long lived—good—shade tree. Our supply is limited.

UNANIMOUS ACCLAIM

Never before has a shade tree received such acclaim from our customers. From all sections come letters concerning fantastic growth. Customers like the straight, smooth trunk and extra large leaves—they like its hardy characteristics and disease-resistant qualities . . . As one man said, "Your new Mulberry has everything."

PRICES:

4 to 6 ft. Trees — \$2.69 each
6 to 8 ft. Trees — \$3.95 each
Large 8 to 10 ft. Trees — \$5.95 each
Giant 10 to 12 ft. Trees — \$8.95

FRUITLESS MULBERRY SPECIAL OFFER

3 trees—4 to 6 ft. size at a spectacular saving—As fast as this tree grows, you will have a yard full of shade in a hurry.

FLOWERING MIMOSA

Colorful Ornamental Shade Tree

This unusual and most beautiful of all flowering shade trees is in such great demand that we have never been able to supply enough trees. The young, spreading tree pictured at right of this page gives you some idea of what a colorful shade tree it makes. Actually, no picture can capture the amazing beauty of a Mimosa. It has an umbrella-like top with light green foliage that folds up at night. Fragrant, fluffy tufts of pink blossoms literally cover the arching limbs in the summer. It is extremely hardy and is adapted to all sections. Labelled RED over GREEN.

TREES

**COLORFUL FOLIAGE
BRIGHT FLOWERS**

Grown For — and Adapted to the SOUTHWEST

Wolfe Nursery Shade Trees are grown primarily for the South — Therefore are adapted to take our southwestern climate in its stride — Because of our wind — our sand — and many times our extreme heat — or cold — it means a great deal to the home owner to buy a tree grown for — and adapted to — this area — You receive the best in shade trees from Wolfe Nursery — Trees that will be a source of pleasure for you and your family to enjoy for years to come . . .

NOTE, PLEASE — Our featured trees — Non-Fruiting Mulberry and Mimosa are pictured on page 41.

RED BUD

One of the all time favorite ornamental trees — masses of lovely red blooms covering the limbs in March or April — Its leaves are huge and round shaped with a rich green coloring — Few, if any, flowering trees surpass it for sheer beauty — It is classed as a dwarf tree, growing to about 25 feet — however many choose to prune severely and grow it as a shrub. Our Red Bud trees are particularly nice this year — Plan on Red Bud for color in contrast in your landscape . . .

PRICES:

Large Trees — \$2.69 Medium Trees — \$1.95 Small Trees — \$1.49

SYCAMORE

A widely planted, beautifully shaped tree that provides plenty of shade. Peeling bark, which comes off in large pieces leaving a smooth cream colored trunk, makes Sycamore an attractive tree. It is an impressive tree, used for street planting throughout the South. Labelled RED over YELLOW.

PRICES: Large Trees — \$1.95 Medium Trees — \$1.59 Small Trees — \$.98

CHINESE ELM

A popular fast growing upright shade tree. It grows into a huge graceful green tree before you know it. Shading a west bedroom, I have one of those lovely Elms that is 35 feet tall, and has a spread of 40 feet. It must have a diameter of 2 feet at the age of 14 years. Dress up your home and lawn with stately shade. Plant shade trees for a background for your home — never in front, unless your home faces west. Chinese Elm is labeled RED over WHITE.

PRICES: Large Trees — \$1.95 Medium Trees — \$1.59 Small Trees — \$.98

CHINESE ELM SPECIAL — 3 fast growing shade trees at an economical price. All 3 only \$2.69

WEeping WILLOW

One of America's most beautiful shade trees. Our true Willow lends a friendly atmosphere to the home and its long, light green limbs reach down to sweep the lawn. A gorgeous shade tree that invites you to a cool, restful spot during the hot summer evenings. A bank of Weeping Willows makes a lovely background for outdoor living rooms. Plant by rock gardens, fish pond — wherever a graceful shade is needed. Labelled with a RED stripe of paint above a BLUE stripe.

PRICES: Large Trees — \$2.89

Medium Trees — \$1.98 Small Trees — \$1.49

ORDER BY MAIL FRESH TREES FAST SERVICE

Whether a shade tree lives and grows fast for you is largely determined by two important factors — First, it has to be a good tree that has been dug with care — Second, it must be in fresh, vigorous condition when it is received by you — When you buy from the grower you do receive freshly dug trees — Trees that will make a shade in a hurry for all your family to enjoy — Buy fresh trees by mail, from Wolfe Nursery.

***SPECIAL RED BUD OFFER

So many gardeners like to plant Red Bud in a clump to create a mass effect — This offer of 3 trees allows you to do this at a saving.

RED LEAF BARBERRY

WOLFE'S FAMOUS RED BERRIED

PYRACANTHA

Crimson Tide

MORE BERRIES — LARGER BERRIES — IN HUGE CLUSTERS FROM THIS CRIMSON RED BEAUTY

Our new hardy Pyracantha that is a sensational beauty. It is lower-growing than most Pyracanthas, and it produces more and larger bright red berries than any other variety. Its leaves are broad and dark green. Its blooms, a bright, bell-like white. Its berries, in cluster, are outstanding all during the winter. Perfect for specimen planting or informal hedge.

We have a large Crimson Tide Pyracantha growing in front of our Nursery Store, and you should see it . . . Visitors say that they never did see such a beautiful Evergreen Plant. Its berries, however, mark it as most unusual. Huge clusters, and the berries are on it for months. Buy and save—and enjoy it all year, every year.

Select 2 yr. Plants \$1.25

3 for \$3.45

AND OUR EXTRA HARDY PYRACANTHA

Gold Nugget

GOLDEN ORANGE BERRIES IN ABUNDANCE

Wolfe Nursery's wonder pyracantha, Gold Nugget, is the gem of all Pyracantha. Its masses of berries are each rich golden in color against deep green foliage. Before its berries come on in late summer and fall, it puts on a magnificent display of bell-like, snow-white blossoms. Most important, it is hardy for all sections. Grow Gold Nuggets in your yard this year!

Select 2 yr. Plants \$.98 each

CAPE MYRTLE

Watermelon Red-Pink

Our most popular flowering shrub, and certainly one of the best loved and admired flowering shrubs of all time. Our Red Cape Myrtle is a watermelon-red color, the finest strain of red that we have ever grown. Our Pink Cape Myrtle has a deeper color than most ordinary strains. It is a lovely Rose-Pink with huge clusters of blossoms.

2 to 3 ft. Plants — \$.98 3 for only \$1.98

ALTHEA

Red - White - Pink - Purple

Beautiful double flowering varieties of Red, Purple, Pink and White that shower blooms from the middle of July until frost. Big, bright green leaves. These hardy, fast growing Altheas make one of the showiest of mid-summer flowering shrubs.

2 to 3 ft. Plants — \$.98

3 for only \$1.98

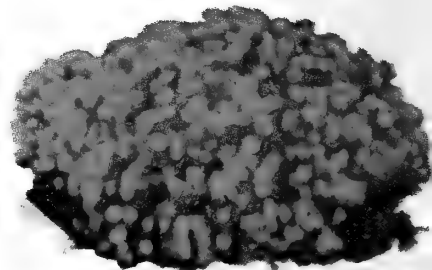

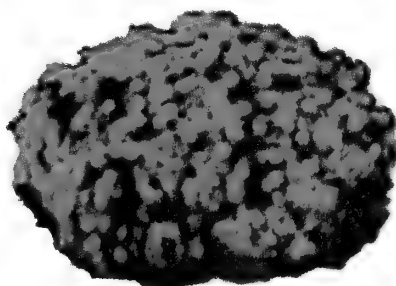

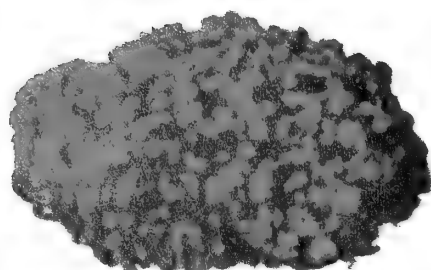

CUSHION MUMS

Grow about 2 feet tall and 2 feet wide. A RIOT of colors and entrancing beauty in the fall. The most show for your money — Thousands of lovely colorful MUMS to brighten your home from early fall until frost. Decorate vacant spots — borders or a special garden with all five colors and have bushes of gorgeous blossoms the first year. They make a lovely deep green globe during the summer and all the blossoms seem to pop out overnight. Cushion Mums will be shipped separately from the rest of your order — usually around the latter part of April and first part of May. When your Mums arrive, plant them right away. **IMPORTANT:** Cut all the tops off about 2 inches above the ground. This causes the plant to spread and make a better growth. Soak the ground when planting and keep moist and shady for several days.

WOLFE'S *Purple Lilac* (A Select Strain)

The beautiful old purple Lilac that you and I have known since we were kids. I have the original pure strain that grows tall and is covered with huge blossoms that only Mother Nature can provide. Fragrant and is often used as an informal hedge or as a flowering shrub under high windows.

PRICE: Each — \$1.29

BURNING BUSH

GREAT NEW FLOWERING SHRUB

One of the most beautiful and colorful — of all shrubs, it becomes a different color with each season. There are bright yellow flowers in May and June — then red berries for late summer and fall. The foliage is an attractive dark green throughout the summer, changing to a brilliant crimson tinged rose in the fall. An unusual cork-like bark adds charm and contrast all through the winter months. Wolfe Nursery's Burning Bush thrives in all sections. The plant is compact and bushy which makes it ideal either as a foundation plant or as an individual specimen. Burning Bush is an outstanding addition to our select flowering shrubs — attracting attention during spring — summer — and fall. A contrast plant that you will be proud to grow in your yard.

Large Size Landscape Plants — \$2.95 Each

GOLDFLAME HONEYSUCKLE

Our new sensational Goldflame Honeysuckle is everblooming and unusually heavy blooming. Its blooms are bright red with bright golden yellow. For growing either in the sun or shade . . . for unusual eye-catching beauty all summer, plant Goldflame, outstanding of all honeysuckle.

2 yr. Plants — \$1.29 Each

PURPLE LILAC

WOLFE'S BURNING BUSH

Nandina

The unusual Evergreen that changes color with the season. Bright green in the summer, turning to vivid shades of fire-red in the winter. Covered with clusters of scarlet-red berries all winter. Grows 3 to 5 feet tall. Can be pruned to desired height. Use under windows and mix with other greens for year-round beauty.

EVERG

FOR THE GREAT

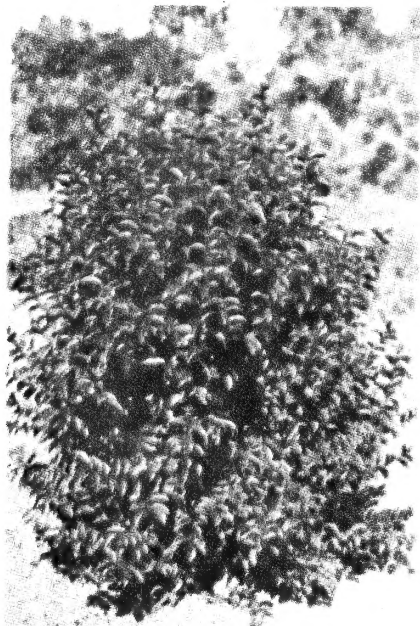

PHOTENIA

A large handsome Evergreen with slightly curled, indented leaves. The new foliage in the spring is a contrast of bright colors and in the fall, they produce an abundance of scarlet red seed pods that look like a mass of red berries. Thrifty grower that can be used many places in the landscape. Will grow from 5 to 7 feet tall, but can be pruned low.

2 yr. Plants — 98¢ Each

EUONYMOUS JAPONICA

EUONYMOUS JAPONICA

A waxy-glossy-leaved specimen of the Broad-leaf evergreen family. An all-purpose plant that may be pruned to any shape, or that will cling close to the wall. Ideal for planting behind flowering shrubs and will make a lovely hedge.

2 yr. Plants
98¢ Each

BONITA

Our deep green dwarf type Evergreen that is widely used . . . it grows compact, and is as round as a ball . . . Bonita is an ideal plant to use with the tall, columnar type of Evergreens.

2 yr. Plants — 98¢ Each

BAKER

A beautifully colored, deep green, globe-like plant, especially suited for foundation or hedge planting. This evergreen is lovely and compact when sheared. Its year-round greenery means year-round color for you and your family to enjoy. Order today for beauty in evergreens in your yard.

2 yr. Plants — 98¢ Each

ITALIAN CYPRESS

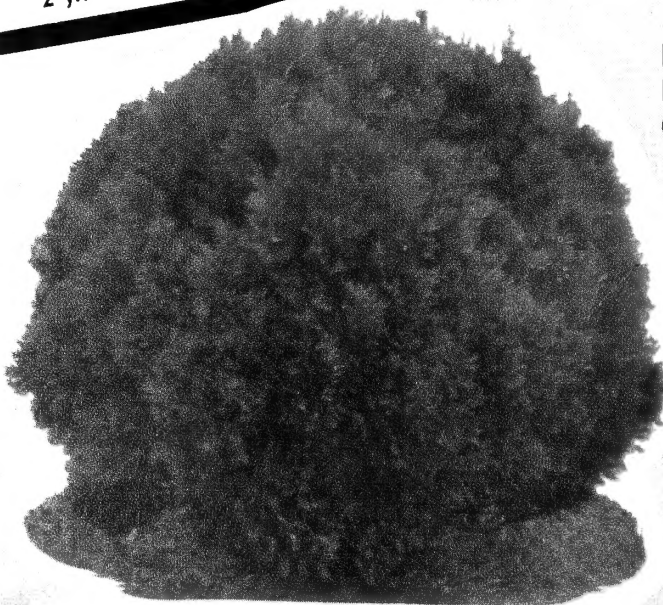

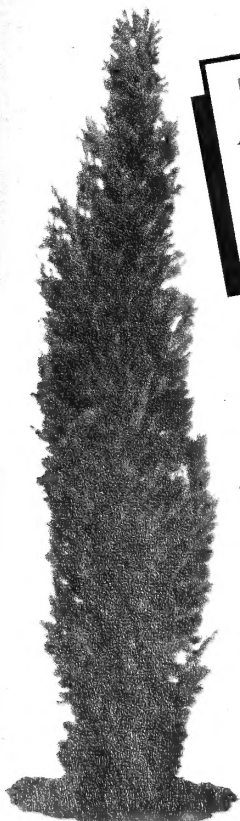

A tall, graceful, slender evergreen with dark green foliage. Need not be sheared — grows 20 feet tall, but can be kept to desired height by pruning top. Use with Pfister Junipers to build up tall lines in the corners of your home.

REENS

SOUTHWEST

RED LEAF BARBERRY

There is nothing as strikingly brilliant in hardy shrubbery as our genuine true red strain of Red Leaf Barberry. Its abundance of thick maroon leaves fairly glisten and make a novel contrast to other plants. Grows about 3 to 4 feet tall. Plant for single specimens, corner groups, solid border hedges, etc. Beautiful in front of a light-colored home. We have recently seen several informal hedges with Red Leaf Barberry . . . Due to the habit of growth of the plant and most of all, due to its scarlet coloring, it makes a delightful and different hedge . . . Plant about 2 feet apart.

2 yr. Plants — 98¢ Each

RED LEAF BARBERRY

ABELIA

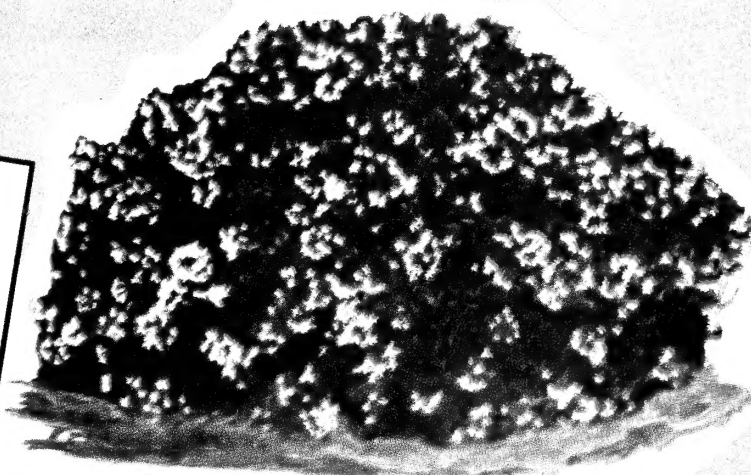

One of the rare Evergreen family that blooms from May until frost with a mass of fragrant white flowers that have a very light touch of pink. Each flower is cradled in a bell-shaped cup with six petals of dark purplish red. This array of exquisite blooms has for a background a willowy dense, glossy green foliage that changes here with the season. Grows 3 or 4 feet high.

2 yr. Plants — 98¢ Each

PFITZER JUNIPER

Most handsome and useful Evergreen for the landscape. This popular spreading Juniper has beautiful silver-green weeping branches and works in nicely with Italian Cypress, Bonita or as a fill for borders and walk planting. Reaches a spread of 4 to 6 feet and can be pruned to any desired shape.

2 yr. Plants — 98¢ Each

WOLFE'S ABELIA

YELLOW JASMINE

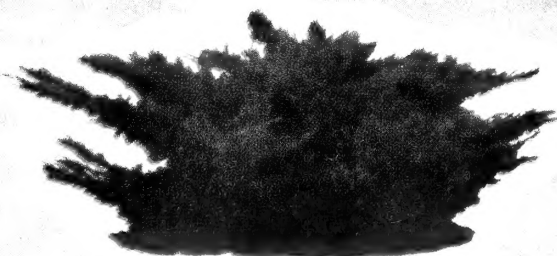

We have selected this variety out of several Jasmynes. Its long, slender branches arch and hang to the ground. The foliage is a bright tender green that is covered with gorgeous little yellow flowers all summer.

2 yr. Plants — 98¢ Each

WAXLEAF LIGUSTRUM

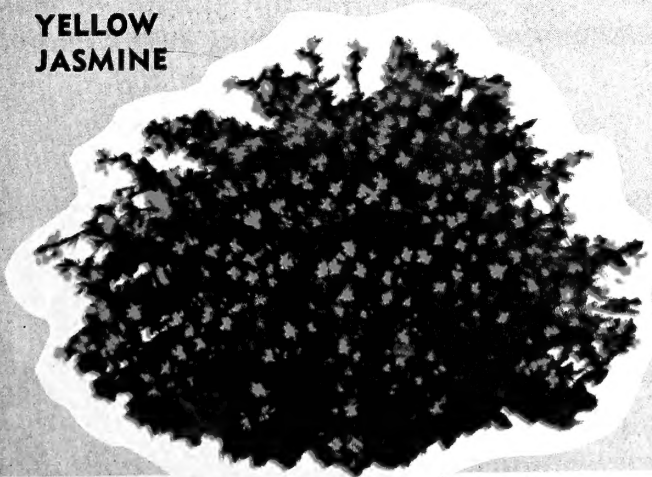

One of the finest broad-leaved Evergreens grown in the South. This aristocrat of the Evergreen family has showy, thick waxy leaves that are dark green on top and light green on the under side. Can be pruned to any shape for specimen plants, or beautiful informal hedge.

A collection containing one each of the 5 outstanding grape varieties that we grow.

\$1.95

THOMPSON SEEDLESS

A sweet, delicious seedless grape known the nation over as one of the finest of all table grapes. Thompson Seedless is sold in stores at high prices. You can take the money that it costs you to buy a few bunches at the store and buy your own vines that will produce all the sweet, delicious home-grown grapes you can use. Plant some of our select grapes—say, at least one of each variety in your back yard on your fence, or even in the landscaping planting. They will be a source of pleasure to you and your family for years to come. Labelled YELLOW.

Jumbo Vines — \$.98

Large Vines — \$.79

DELAWARE

There has probably been a greater acreage planted in Delaware than any other red Grape. This beautiful, compact variety has juicy, sweet flesh of the finest quality for both table and wine use. It is adapted to a wide area and considered one of the heavy production varieties. It is a good commercial Grape and your home orchard will not be complete without Delaware. Labelled ORANGE.

Jumbo Vines — \$.98

Large Vines — \$.79

NIAGARA

The Grape with a distinctive flavor is worthy of a place in your planting. This hardy, prolific Grape is another of our selections from a long list of good varieties. It is a vigorous grower that produces an abundance of light green to white, compact bunches. Don't leave Niagra out of your planting if you want a Grape with a delicious tang. Niagra is labelled WHITE.

Jumbo Vines — \$.98

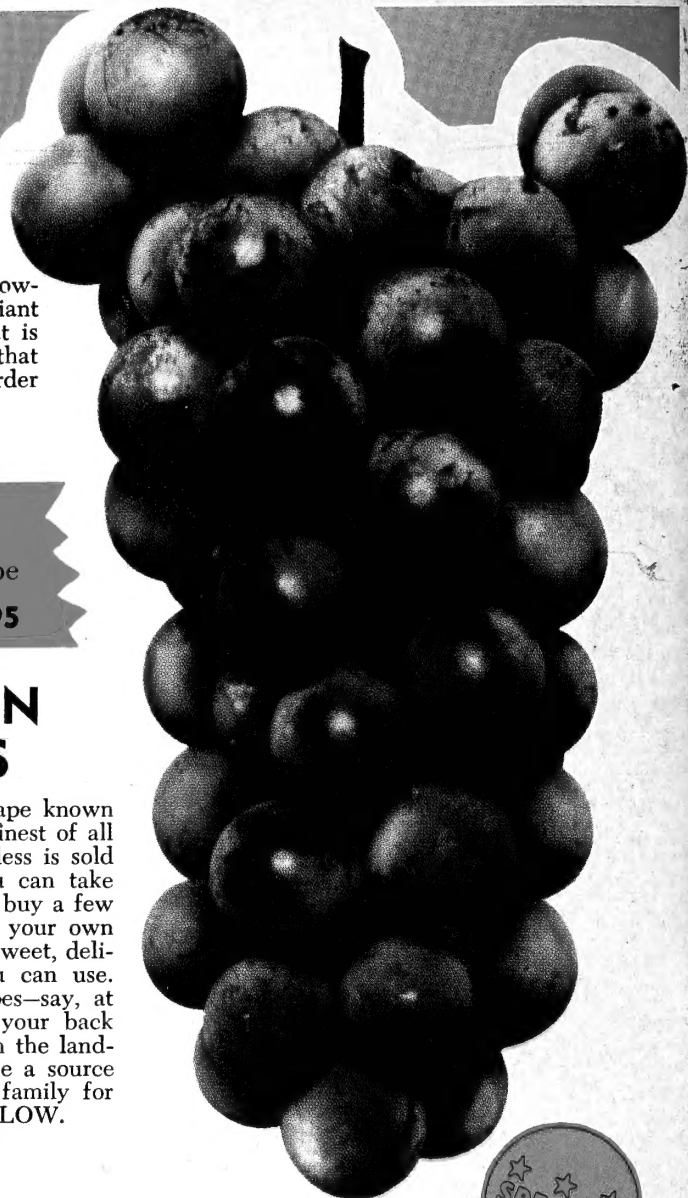

Large Vines — \$.79

CONCORD

This large, juicy, sweet, tender-fleshed Grape ripens in August when everyone is hungry for a handful of good eating. The clear-skinned, purplish black Concord bears heavy crops the second or third year after planting and the strong, healthy vines produce for many years. Concord is labelled BLUE.
